Municipal Record

NINETY-SIXTH COUNCIL

COUNCIL

JOHN S. HERRON.....President

ROBERT CLARK.....City Clerk

EDW. W. LINDSAY.....Ass't City Clerk

Pittsburgh, Pa.

Monday, January 6, 1930.

On Monday, January 6, 1930, at 10 o'clock A. M., the members-elect of the Council of the City of Pittsburgh, together with those holding over, convened in the Council Chamber of said City, in accordance with the provisions of the Act of Assembly of the Commonwealth of Pennsylvania, approved May 31, 1911.

The Council was called to order by Robert Clark, City Clerk, who acted as Chairman Pro tem. of the meeting.

The Chair presented

No. 1

Commonwealth of Pennsylvania } ss:
County of Allegheny

I, John Vogt, Prothonotary of the Courts of Common Pleas in and for the County and State aforesaid, do hereby certify, that at an election held on the fifth day of November, A. D. 1929,

W. Y. English received.....94,553 votes
John S. Herron received.....92,315 votes
Harry A. Little received.....92,366 votes

Clifford B. Connelley received.....88,079 votes
Michael J. Muldowney received.....86,144 votes

And were duly elected to the Offices of Council of the City of Pittsburgh, County and State aforesaid.

Witness my hand and the seal of said Court the twenty-third day of November, A. D. 1929.

JOHN VOGT,
Prothonotary.

(Seal)

Which was read, received and filed.

And the following members-elect, Messrs. W. Y. English, John S. Herron, Harry A. Little, Clifford B. Connelley and Michael J. Muldowney arose in their places and took the oath of office, which was administered to them by the City Clerk, Robert Clark.

Present: Messrs.

Alderdice	Herron
Anderson	Kambach
Connelley	Little
English	Muldowney
Garland	

A quorum being in attendance, Council proceeded to the election of a President.

Mr. English arose and said:

Mr. Chairman: It is with great pleasure that I arise at this time to place in nomination for President of the new Council my friend and colleague of many years standing, the Honorable John S. Herron.

It is needless for me to paint any eulogy of this familiar figure in the life of Pittsburgh's history. We came into Council together 16 years ago.

Occasionally we have differed; occasionally we have quarreled, but never once in all that period has either forsaken the other.

It would be ill indeed if anybody should attempt to part Damon and Pythias of Pittsburgh Council.

Mr. Herron has the intelligence and the ability, and his attention to the duties of

the office of Councilman has endeared him to the people of Pittsburgh.

I think in this present history of our city when intelligence, above all things is essential, with the recent expansion of Pittsburgh by annexation of several boroughs, that we must give the people the service to which they are entitled and endeavor to distribute the tax money in an equitable manner in the various sections of the city, believing that it is for the best interests of the city to elect as President a man who has the intelligence, ability and qualifications of John S. Herron, I take pleasure in nominating him for our President.

I hope, Mr. Chairman, his election will be unanimous.

Mr. Kambach arose and said:

Mr. Chairman, I desire to second this nomination.

Mr. Garland moved

That the nominations close on the name of John S. Herron. Which motion prevailed.

And the result of the voting was as follows:

For John S. Herron

Messrs.	
Alderdice	Garland
Anderson	Kambach
Connelley	Little
English	Muldowney

(Mr Herron not voting).

And John S. Herron received eight votes.

And John S. Herron having received a majority of the votes of Council, was declared duly elected President for the ensuing term.

The Chair (Mr. Clark) appointed Messrs. English and Kambach to escort the President-elect to the Chair.

And the Committee performed the duty assigned it and presented John S. Herron to Council.

And the oath of office as President of Council was administered to John S. Herron by the City Clerk, Robert Clark.

Mr. Herron said:

Gentlemen of Council: I thank you most sincerely for the honor conferred upon me, and I assure you that I will do everything humanly possible to do to merit your confidence. Most of you have heard me so often that I will not attempt to make a speech at this time, except to say that we have a tremendous task before us. The tax levy has been fixed, but the appropriation and salary ordinances are

still in the making, and in order to complete that work we will need the hearty cooperation of all the members, for which we hope.

I wish to state to those present today that it will be Council's aim to make Pittsburgh a bigger and better city, and this can only be accomplished by the Executive and Legislative Branches of the Government working together.

Ladies and Gentlemen, on behalf of Council, I thank you most sincerely for your presence here this morning. It shows by your attendance that you are interested in the affairs of your city.

The first order of business will be the appointment of a Rules Committee. The Chair recognizes Mr. English.

Mr. English moved

That when Council adjourns, it shall adjourn to meet this day at 3 o'clock P. M., to receive communications from the Mayor.

Which motion prevailed.

The Chair appointed

Messrs. English, Garland and Kambach as a Committee on Rules.

The Chair said:

Ladies and Gentlemen: We have with us a gentleman who is a real-honest-to-goodness citizen of Pittsburgh, who has never lost interest in the affairs of Pittsburgh's Council. For a great number of years he was a member of this body and served as its President, and today he is here; and I want you to have the opportunity of meeting a gentleman who has always kept the standard of Pittsburgh high. He is my friend and I asked him to sit with me. I take pleasure now in introducing him, although he does not need an introduction to this audience, Dr. James P. Kerr.

Dr. James P. Kerr said:

Mr. President, Ladies and Gentlemen: It certainly is a great pleasure for me to be here this morning. I came at the solicitation of my friend, John S. Herron, and because, as he said, I have an interest in city affairs; but John being such a timid man I thought he might collapse during these ceremonies and need medical attention, so I thought it wise to be here.

You are starting right, and I hope the business of the city will be done with dispatch and that the city will profit by the efforts of you men, most of whom are trained along the lines of city business. I

know the next four years will be the most prosperous years the City of Pittsburgh will ever enjoy, and I believe the business of the city will be done with dispatch and to the credit of the city and to the advancement of all the city's activities.

I thank you very much.

The Chair said:

Ladies and Gentlemen: We have two new members of Council, who perhaps a great many of you have not met and with whom we hope you will become better acquainted. The new members of Council, of course, will be called upon to say a few words to their friends assembled here, but we have a rule in Council to not embarrass a new member, and therefore the best man to express his gratitude to the citizenry of Pittsburgh for his reelection is my friend, W. Y. English, who will say a few words now.

Mr. English arose and said:

Mr. President, Gentlemen of Council, Our Families and Friends: This, indeed, is a very happy occasion for the speaker. I have been signally honored by the people of Pittsburgh; on five occasions they have given me freely of their votes, and at the last elections honored me by permitting me to lead the ticket in the Primary in September and again in the General Election in November. Any man who cannot be content with such wonderful honor from the people of Pittsburgh is not worthy to serve in this Council.

I am happy to serve here and I want to take advantage of this opportunity to say to my friends and colleagues in Council, as well as to the large number of friends assembled here, that this glorious occasion, happy as it is, is full of tremendous and vital responsibilities. It seems to me that there are three things that we as Councilmen must bear in mind, not only today, not only this year, but every day and every year in which we serve in our capacity as servants of the people, and those three things are:

First, that we owe all our allegiance to the people who have elected us and who pay our salaries. If we are faithful to our trust and administer the government of this city from the legislative branch with an eye single to the good of the people, for the welfare and progress of our city, then we will have a successful administration.

The second thing is to remember that we must cooperate with the executive branch

of the city government. That is our duty beyond question. Now, that does not mean, as the morning newspapers said, that we are going to be "yes" men in this Council, because an examination of the record of this Council will show that there are no "yes" men in the Council. It might appear from the stories written in the newspapers from time to time that we are "yes" men, but we are not. The thing for us to do, it seems to me, is to acknowledge that the Mayor is the executive of the city, that the actual administration of the government is under his care, and that it is not the function of Council to interfere in the slightest manner with what the executive desires to do with his end of the city government so long as he keeps within the law and attends to his own business; but on the other hand it does mean that we shall offer him every facility for the prompt and efficient conduct of the city business. Reduced to plain terms that means this: If he needs positions for any branch of the government and can show the Council the wisdom and need of such positions, it is our duty to create such positions and appropriate the money to carry on and go through with it. If the Mayor is unable to convince the Council that the position is necessary and the Council is satisfied that it is not necessary and we cannot see our way clear to appropriate the money, we should say to him openly and frankly we cannot do it and will not do it. That ought to be the end of it. It ought not to end in any factional struggle between the Mayor and Council. Council should not quarrel with or embarrass the Mayor and the Mayor should not harass the members of Council or their friends. I am glad of the opportunity today to place this clearly before you and the people of Pittsburgh. If the people will follow our actions and our votes I think they will be in sympathy with that kind of a platform.

The third and final thing for Council to remember is, that we have our duty as Councilmen to perform. Right now, we are faced with an appropriation and salary bill, to fix which requires more money than the 26 and 13 mill tax levy will bring into the treasury. There is no use in our dodging or hiding the facts, we must cut the appropriation and salary bills to meet the tax levy. Some of the newspapers said that Councilman English was a "yes" man when he voted for the 26 mill tax levy. They did not print the complete statement.

The article stated that Councilman English said Council should pass the 26 mill tax rate because the Mayor had suggested 26 mills. That was all that was printed. As a matter of fact every man in Council, including myself, knew full well that 26 mills on land and 13 mills on buildings would not bring in enough revenue to match the appropriation and salary requests, etc. Knowing this, I stated that as the Mayor has suggested the 26 mill tax levy I for one will be in favor of that tax rate, and will help the Mayor cut the appropriation and salary bills so that they will come within the revenue produced by that levy. You did not see the complete statement in the newspapers; it is possible that they were crowded for space and could not print all of my statement. I am not quarreling or complaining about that, as I know that an editor of a newspaper has the right to see things from his own viewpoint. But in this instance they did not print the entire story. In the face of the protest from the real estate owners and building managers association, the councilmen did not defiantly increase the taxes because they had enough votes. Because we have the votes or power is no reason or excuse to run riot with the people's money. Far be it for me to take such a position. I shall at all times try to conserve the people's money and shall vote for those things which I think right and against all things that I think are wrong. This is my personal position and I hope I will be able to convince the rest of the Council to do likewise. We must remember that we are the people's representatives. Our political connections must have some consideration, because any man with any brains at all must recognize that the government by parties is the greatest business or industry in these United States or any other country of the world. We believe that in our country we have brought the science of government to the greatest degree of success that it is humanly possible to achieve. We know in Pittsburgh we are not perfect, but with an honest and sincere desire to serve the public we will stand up against those foolish friends with foolish claims to get money out of the city treasury. It will be my aim to resist such claims. In fact, my suggestion is that Council adopt a fixed policy for the City Solicitor; that we should refer all claims to the Solicitor for all the facts and his opinion, and we want all the facts whether they hurt the city's case or help it,

and we will decide all claims on their merits, and not on any other basis.

Now, that is my platform. I hope we will cooperate to the fullest extent with the Mayor, and at the same time remember that he is the Mayor and the executive and that we must not get mad at him and start a factional fight in case we do not agree on some political matter. On the other hand we must remember that we have our own duties and responsibilities and do not expect any interference from the Mayor. Four years ago we started off with harmony and that lasted for over three years. There was no factional strife or bitterness until the campaign for Mayor in the summer of 1929. The ambitious struggle for power disrupted the harmony and good will which had prevailed for three years. If we can preserve the harmony which we had in the three years of 1926, 1927 and 1928 for the next four years, I can see nothing but success and prosperity for the administration of the Legislative and Executive branches of the city government.

The Chair said:

Mr. English, your remarks were timely and good. Mr. Connelley can you follow the lead set by your colleague.

Mr. Connelley arose and said:

Mr. Chairman and Friends: I have learned something just this minute that I will try to follow during my life in Council. If Mr. English knows the city's requests and can do as much in action as he expressed today, I think it would be a good time for me to follow him.

I want to thank you for calling on me. I have not much to say. I think it would not be in keeping with good practice to say much today, because I am new.

I want to thank the people of Pittsburgh for electing me to this office. I am not unmindful of the great responsibility of this position. Being born in Pittsburgh I have noticed its advancement and growth, and being a student of industrial relations, I know from that what might be required.

If you will bear with me, I promise this, that I will give to you the best that my ability affords, and I trust I will not be found wanting when the time comes--when the crisis comes.

I want to again say to those who have helped on both sides of the River that I appreciate very much being taken as I

was into the fold and asked to be one of their leaders. I do not think I would go wrong with the guidance I have here. I am glad to be one of the city fathers, which means much to one who thinks, and I trust I will be able to deliver when the time comes. I thank you very much.

The Chair said:

Mr. Connelley, you did very well. We are proud of you. Mr. Little, many of your friends are here and would like to hear from you.

Mr. Little arose and said:

Mr. President, first of all, I want to congratulate you upon your unanimous election as President of this august body.

The Chair said:

Thank you, Mr. Little.

Mr. Little continued:

I want to thank all my friends who supported me during the Primary and the General Election. I believe I needed all those votes. I just had the pleasure of listening to Mr. English. That is the first speech I heard him make. I did not have the pleasure during the election to hear him; but it impressed me just the same, and just as Dean Connelley said, with the thoughts he gave we cannot go wrong.

I want to congratulate you, Mr. Connelley and Mr. Muldowney. You will be an asset not only to this Council, but the City of Pittsburgh, as a whole.

I believe the legislative branch should cooperate with the executive branch of our government, and if this cooperation continues the next four years we are going to advance the interest and welfare of our city, and I do not mean by that that we will be "yes" men. I will be with the Mayor when he is right and against him when he is wrong, and I will do all I can to carry out that policy with the complete harmony and cooperation of the two branches of the city government, and help Pittsburgh to advance to a position where it belongs among the other municipalities of the country, because we are competitors of other cities. I shall always strive to place Pittsburgh where it belongs and make it the most progressive city in the United States.

In conclusion, Mr. President, I want to congratulate Director Lang for the beautiful decorations of this room. I believe it is the most beautiful decorations that I have ever seen in city hall.

The Chair said:

Now notice, Ladies and Gentlemen, that we have team work here, and Mr. Little has played his part well.

The next speaker I am going to introduce is a very fine fellow; in fact I think he is the best looking man in Council. I don't mind telling you girls that he is single. Mr. Muldowney get up and meet your many friends.

Mr. Muldowney arose and said:

Mr. President, Ladies and Gentlemen: Needless for me to say that I am very happy and proud to be a member of this body. And I am very glad of this opportunity to extend to my many friends my sincerest thanks and appreciation for the support given me.

I assure you that I will use every effort to carry out my oath of office with fidelity and I hope to merit the confidence placed in me by over 86,000 voters of the City of Pittsburgh. I thank you.

The Chair said:

Mr. Muldowney and I have the same idea about this position. We do feel grateful to have this position. Mr. Kambach was recently elected to Council and I want you to see the type of man that we selected to fill a seat in this body. I don't mind telling you ladies that he is the only rival that Mr. Muldowney will have. He is single.

Mr. Kambach arose and said:

Already the Chairman has started a rivalry. I do not know whether he speaks harmony or not, but the future will determine that.

My friends, I am glad to be here and a member of this legislative body. I know the members personally and have known them for a number of years, and I shall be glad to work with them, and as Mr. English has said, there are two distinctive branches, the Executive and the Legislative. The city cannot advance without the proper cooperation between the two branches, but each branch has its own duty to perform. As far as I am concerned, and I am sure the rest of the members feel the same way, that we will regard that distinction and that we will also remember the trust that the citizens of Pittsburgh have placed in us, and that we will do everything for the best interests of the city and to see that the business of the city is conducted in a proper manner. I thank you, Mr. Chairman.

The Chair said:

So the Council will always be well balanced, the law provides for the election of a certain number of councilmen every two years. You have heard from the newly-elected members, so now I will call upon those whose terms continue. I will first call on Mr. Alderdice.

Mr. Alderdice arose and said:

Mr. Chairman, Ladies and Gentlemen: It would ill become me at this time to say anything because today is yours and the new members who are taking their place in Council.

I want to congratulate you on your election as President of Council, and I know that you will fill it with credit to yourself, the members of Council, your family and the City of Pittsburgh.

I also want to congratulate the new members who were elected to this Council.

The Chair said:

The next gentleman I might say very seldom makes speeches. On rare occasions such as this, we can get him to make a speech. I refer to Mr. Anderson.

Mr. Anderson arose and said:

Mr. Chairman, Ladies and Gentlemen: I too wish to congratulate you. I also wish to state, Mr. Chairman, that I regret the passing out of Council of the three men who left this body. Their every thought was for the best interest of the city, and everything done by these men was done always for the best interest of the people of Pittsburgh. I would not feel that I would be doing justice to myself if I did not say a word for the men who are not here today.

I wish also to welcome the new members of this Council. I know the Council is very fortunate by the selection of these men by the people. I wish to assure them that as long as I am a member of this Council I will make it as agreeable and pleasant for them as the other members have done for me within the last six years.

The Chair said:

We always save the best for the last. We have with us a gentleman who has been a member of Council for a great number of years. He is still a young, vigorous, active man. Mr. Garland meet your many friends.

Mr. Garland arose and said:

Mr. Chairman, Ladies and Gentlemen: First, I want to congratulate you, Mr.

President, on your unanimous election; and secondly, to welcome the new members.

I have never thought for a moment that there was any particular disagreement in Council in the last four years. I believe 98 per cent of the legislation passed unanimously. Very seldom do we have any disagreement on Councilmanic matters. There was never any clashing in Council which resulted in animosity towards one another. I have never known one instance where a member of Council was discourteous to a department head when he came before Council. The gentlemen are here, and Director Lang, I congratulate you for the very fine decoration of this room, and I also congratulate the Director on his very fine dress today, and I congratulate the City Solicitor not only for his fine dress, but for the spats. As for me being the oldest member in Council and a grandfather and having lived here over 50 years, I never acquired the habit of wearing spats, Charley Waldschmidt. If he were running for office he would not wear spats; he is an appointed officer.

Putting aside all joviality, I want to say that I will do the best I can, as I have always done, and my conscience will be my guide, and I will vote yes when I feel like it and no when I feel like it. That is all.

The Chair said:

Mr. Garland has given me an idea. I thank him for it. The Mayor, of course, is usually a well dressed gentleman, but I want to congratulate the Director of Public Works and the City Solicitor upon their appearance this morning. Director Lang, Director Maits, Director Clark and Solicitor Waldschmidt, will you step up and say a few words, and show these people what cooperation is going to mean. A man is no better than the company he keeps; and these are the men who have helped make the Mayor famous. Director Lang.

Mr. Edward G. Lang, Director, Department of Public Works, said:

Mr. Chairman, Ladies and Gentlemen: This is, indeed, a happy occasion to the speaker for various reasons that I shall not dwell on at any length. It has been a great privilege to serve the City of Pittsburgh in years gone by in the capacities to which I have been called, and my aim, object and ambition is to make Pittsburgh great and to keep her great. The work in the department has been most fascinating, most pleasant. Our relations

with the legislative body of the city have been all that could be expected in the great building program such as we have had in the past four years. We are not unmindful of the responsibilities that rest upon one who has taken upon himself the duties of a department, such as represented in the various departments of the City of Pittsburgh; and in carrying out these duties and obligations we need the kindly cooperation, the help and sympathy of the legislative body of the government—the executive heads of the various branches of the service, because our work is co-related one to another, and we cannot succeed without the cooperation and kindly assistance and help of all the others. In other words, this great body of cabinet officers must have unanimity of purpose in mind so that the duties that devolve upon them will bring to the people in rich measure that which they rightly and so wonderfully deserve at the hands of their public servants.

It is a great privilege to serve this City, which is an outstanding one in the country; and it is that spirit that permeated the past administration, and I am sure will permeate this administration, that will make Pittsburgh a better and bigger place in which to live and work as the years go by, and that she will reach that point in her history where she will take her place among the leading cities of the world.

I am pleased and happy to be here, and I look forward to continuing with you for some time in the future, at least so long as the Mayor and kindly Providence will permit.

The Chair said:

I thank you, Director Lang. You are a courageous man, and I cannot understand why our friend, Charley Waldschmidt would be so bashful. Charley, come up, and say a few words. Ladies and gentlemen, I want to say that Mr. Waldschmidt is a kind and affable man. He has a big heart and has been a wonderful friend to Council and the City of Pittsburgh. Take a look at him now, and I am sure you will agree with me that he merits your confidence as well as that of the Mayor.

Mr. Charles A. Waldschmidt, City Solicitor, said:

Mr. Chairman, Members of Council and Friends of the Councilmen: It is indeed a pleasure for me to be present at the organization of this Council. During the past four years everyone of you gentlemen

have indeed been a friend of mine and have been very kind to me, and I know from past experience that the two new members will gladly cooperate with you and me in the handling of the city's business.

Just to be facetious, I want to say to this august body that it ill behooves me to be in such a position that the least word of scorn can be pointed at the attire of your solicitor.

I want to say in conclusion, I bespeak the same kind of cooperation and any time I can be of service to the President or any member of Council or any citizen of Pittsburgh, should I be solicitor, the doors will be wide open. I will do the best I can for the benefit of the City of Pittsburgh wherein I was born, schooled and to whom I owe all. I thank you.

The Chair said:

I thank you, Mr. Waldschmidt. Director Clark, will you take the opportunity to meet your many friends? This gentleman has a very trying position.

Mr. James M. Clark, Director, Department of Public Safety, said:

Mr. Chairman, Members of Council, Ladies and Gentlemen, Officers of the Pittsburgh Police Force: I am glad to see you all here and glad to see the officers looking so fine. I compliment you for the fine showing you have made here this morning. I am proud of you boys, everyone of you.

This is the first opportunity I ever had to speak to Council. I have been summoned to Council many times, but they always talked to me. I never had a chance to talk to them, and this certainly is a rare occasion, and I appreciate it very much.

But without joking, I want to say my relations with Council have been pleasant and I was always treated courteously by every member of Council, and have no feeling except those of kindness for the members of Council who are here and those not here today. I hope the same feeling of cooperation will continue to exist between my department and Council. The latch string on my door is out to every one of you and I will be glad to welcome you.

I am not dressed properly to appear before you; I have no spats and did not understand it was going to be a spat morning, and because I do not appear in the proper dress, I apologize to you.

I congratulate you, Mr. President.

The Chair said:

Ladies and Gentlemen: I am going to ask a Colonel in the late World War, the Director of the Department of Supplies, to say a few words. Colonel Succop.

Mr. B. L. Succop, Director, Department of Supplies, said:

Mr. President, Ladies and Gentlemen: There isn't much for me to say, except that I congratulate you, and nothing pleases me more than to see you sitting there.

I have been treated with the utmost respect by Council. I have always tried to fulfill the duties of my position with fidelity, always keeping in mind the best interests of the City, and I think the accomplishments of the department speak for themselves. I have a good department and try to run it efficiently, and that is as much as anyone can say for his department.

The Chair said:

Ladies and Gentlemen: We have with us today a gentleman who perhaps has the most efficient department in the City of Pittsburgh, handling health matters—a very fine man. I wish you could know him as well as I. Dr. Maits.

Dr. C. B. Maits, Director, Department of Public Health, said:

Mr. President, Ladies and Gentlemen: I wish to add my congratulations to all of those spoken to the President of Council and to the new members of Council. I am one of the newer members of the Mayor's cabinet. The work in my department has been a source of pleasure to me.

I want to express my appreciation to the members of Council for their kindly assistance and also pay my tribute to Mayor Kline for his cooperation in the running of the Health Department; and I wish to say to you that it will be my earnest endeavor to give you an efficient health department in the city of Pittsburgh.

The Chair said:

Ladies and Gentlemen: During the last four years we had wonderful cooperation with the County of Allegheny in the building of bridges and highways, and the man responsible for this splendid cooperation had experience in the city service. I am glad he is here today so that you may see the man who handles the public works affairs of the county, he formerly having been Director of the Department of Public Works in the city. He is a wonderful

man. Mr. Brown, will you get up and say a few words?

Mr. Norman S. Brown, Director, Department of Public Works, Allegheny County, said:

Mr. President, Ladies and Gentlemen: I want to add my congratulations to those you already received, and hope in a short time to become better acquainted with the new members who were sworn in this morning.

It has been my pleasure to come before the City Council on numerous occasions within the past four years to ask the City's cooperation on County projects, and I have always received unanimous support from Council. I am sure that the same cooperation which exists will continue.

It is a pleasure, gentlemen, to meet you and I am glad to be here to see this ceremony.

The Chair said:

Ladies and Gentlemen: I do not have any hesitancy in calling on the next speaker. I will take a chance with him. The next speaker is a wonderful man. I worked with him before we knew where city hall was. He is a wonderful friend of mine and I am sure the friend of many present here this morning. Senator Coyne.

Honorable James J. Coyne, State Senator, said:

Mr. Chairman, I want to also congratulate you. I was not paid to do this like the rest. It is a little tough on me. I am doing it for nothing.

Ladies and Gentlemen, I am glad to be here today and watch the new members of Council sworn in and hear the Directors, and I want to state that there was never a time when I came before Council, which was only on a few occasions, that I did not receive a hearty welcome. The old and new members are friends of mine. To a certain extent I regret seeing the old members go out, but I suppose it is for the best interest of the city.

I am certainly glad to see this present administration continue on for four years and if it is as good the next four years as it has been in the past, it will continue on for 20 years.

The Chair said:

I thank you Senator. We, too, regret the passing out of the old members. Life is too short at the best, but, of course, we all live to pass on, and the affairs of the City of Pittsburgh must continue on.

PRESENTATIONS.

Mr. Garland presented

No. 2. An Ordinance making appropriations to pay the expenses of conducting the public business of the City of Pittsburgh and for meeting the debt charges thereof for the fiscal year beginning January 1, 1930, and ending December 31, 1930.

Also

No. 3. An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh, and the rate of compensation thereof.

Which were read and referred to the Committee on Finance.

Mr. English moved

That Council recess until 11:45 A. M.

Which motion prevailed.

And Council took a recess until 11:45 A. M.

And the hour of 11:45 o'clock A. M., having arrived, and the time of the recess having expired, Council reconvened and there were present:

Messrs. Alderdice, Anderson, Connelley, English, Garland, Kambach, Little, Muldowney, Herron (President).

The Chair appointed a Committee, consisting of Messrs. English, Little and Connelley to escort the Mayor-elect, Charles H. Kline, to the Council Chamber.

And the Committee having returned with the Mayor-elect, the Chair presented:

No. 4

Commonwealth of Pennsylvania } ss:
County of Allegheny }

I, John Vogt, Prothonotary of the Courts of Common Pleas in and for the County and State aforesaid, do hereby certify, that at an election held on the fifth day of November, A. D. 1929, Charles H. Kline having received eighty-two thousand three hundred and ninety-five (82,395) votes, was duly elected to the Office of Mayor of the City of Pittsburgh, County and State aforesaid.

Witness my hand and the seal of said Court, the twenty-third day of November, 1929.

JOHN VOGT,
Prothonotary.

(Seal)

Which was read, received and filed.

And Mayor Charles H. Kline having been presented to Council, took and subscribed to the oath of office, which was administered to him by President Herron.

Mayor Kline said: "Mr. President, Mrs. Kline, Ladies and Gentlemen--

With a heart full of gratitude and with a soul, animated by feelings of elation, I come today to assume, for another four years, the duties of chief executive of our great and beloved city.

It is a signal honor, indeed, to be elected mayor of such a thriving and cosmopolitan community, which has played such an important part in the history of the Keystone state and of the Republic.

But, after serving four years, to go before the people and to succeed in obtaining an endorsement of my policies, together with a mandate for a second term, is a reward which comes to few men in public life.

I deeply appreciate the fact that I am the first mayor who has been permitted to succeed himself under our modern charter in half a century of hectic and historic years.

While I have within my breast sentiments which bring to me and to Mrs. Kline emotions of personal satisfaction, which I, being only human, might be tempted to expand into pride, nevertheless, I enter upon my second term with that humility which fittingly becomes every free man and every public servant in this, the world's greatest democracy.

Because I appreciate that there comes to me this day added responsibilities and a deeper and wider obligation to be true to the trust of my fellow-Americans.

When a few moments ago, with one hand upon the Holy Bible and the other upraised to Almighty God, I promised, in That presence, to discharge the duties of this position, I was fully sensible of the sanctity of that oath.

Having just concluded that portion of these inaugural exercises, I wish, at this point, to assert most positively that the promises and pledges, constituting the platform upon which I was a candidate, and which were accepted in good faith by the people whom I am to serve, are now a sacred bond between them and me.

In that oath I promised to uphold and defend the Constitution of the United States. To me, that means the entire Constitution of our Republic.

I make and mean this assertion, regardless of what my personal views may be on certain portions of it.

But those who have decided views on dry legislation should remember that the administration of every large city in the land has been beset with difficulties hitherto unknown in our history.

The wave of lawlessness has been sweeping. Deep in the hearts of many is the desire to live outside the laws. So much so that the President of our nation, as one of his first official acts, found it necessary to appoint a commission to inquire into the cause thereof and to find a remedy.

The primary duty of a city police force is to throw safeguards around the life, the property and the liberty of its citizens.

To completely cope with the extraordinary conditions encountered in the last decade would require an expansion of that force equivalent to an increase of 100, 200 or 300 per cent.

Therefore, under such conditions our local police must first perform, to a full degree, the duties which, to them, are fundamental and then, do the best they can to master a situation which is regarded as abnormal from Maine to California and from the Canadian border line to the Republic of Mexico.

The money which we take from the pockets of our people by local taxation is intended to meet the cost of local government only.

If we permit the federal government to throw upon us the cost of bearing its responsibility, the financial burden to Pittsburgh's taxpayers would be such as to amount to the confiscation of the property of our people.

Therefore, the pledge of this administration to the people of our own city and to the federal government is that in the enforcement of law, we will do our part—we will pay our way—but the federal government must do its part and also pay its way.

The problems before us, in a sense, are not new. But we must be ever mindful that in a local government such as ours there are two branches which are directly responsible to the people. One of them is the administrative; the other is the legislative.

We will reach the ultimate of public service and civic advancement only when these two work in a spirit of harmony and cooperation.

I must acknowledge that during my first term, with some exceptions, the members of the legislative branch of the city government exhibited that spirit to an unprecedented degree.

I, in turn, as head of the executive branch, chartered my course so as to show the same spirit towards them.

In beginning this second term, I want it thoroughly understood that the administrative branch intends to continue that same policy, without deviation.

From the executive end, the gentlemen of Council will not be harassed by interference nor annoyed by pressure.

I am going to assume that they will accord that same treatment to the administrative branch and allow us to work out our own destinies.

Thus shall we together construct and operate a service organization which will produce actual results for those who pay the bills.

The employees of this great city, a veritable army of civil servants, will continue to be treated by the executive officers with fairness, kindness, courtesy and consideration. But I shall expect from them an actual return in the way of service rendered for the wage or salary received.

Many people believe that the life of a public servant is one of ease and contentment. This is not the case. You will find some who look upon public employment as a sinecure. My theory, and the theory upon which I shall operate the administration, is diametrically opposed to this view.

One who is on the public payroll should, in my judgment, work even harder than the employee of a private corporation. Loafing should become a lost art. This for the reason that public time is equivalent to public money, which is a sacred trust for which all of us are responsible.

But not only must those who are paid for doing it work for Pittsburgh, but she must have the service also of every civic patriot within her boundary lines.

All Pittsburghers, not only by their words, but by their acts, can help in a superlative way to make Pittsburgh supreme.

Pittsburgh's greatness, past and present, has been due to the willingness of her people to work.

The great fortunes which have been accumulated in this district are founded upon the toiling masses which have ever populated this community.

Wealth has been produced here in the past and will be in the future. But we should not ignore the fact that those who make fortunes here owe it to this community to put some of that wealth back into the development of the city which helped to create it.

To make a fortune here and then invest it elsewhere is not fair.

Let those with wealth who made it here invest it in real estate and then, by improving that real estate, help to make our city greater.

Or let them, by gifts of playgrounds, parks or public institutions, confer a lasting benefit upon our people.

During the Primary and General Election campaigns which have ensued, frequent reference was made to the political activities of your chief executive.

In order that my course may be fully understood. I think it is fitting to say, at this time, that I intend to take an active interest in political contests when, in my judgment, the outcome of these contests are important to the people of this city.

Under no circumstances will I engage myself in any petty or peanut politics in the administration of our municipal affairs.

But a governor of the state, members of the General Assembly and county officials have a sufficient number of vital contacts with our city affairs to do us either great harm or great good. In elections of this kind, I shall summon every strength at my command to support men for those offices who will have the right conception of local government and will accord Pittsburgh the fair, square deal to which she is entitled and which she is too frequently denied.

Such a course is not only my right as a citizen but my duty as your Mayor.

During the campaign which resulted in my re-election, I appealed to the fair-minded electorate of this community on a platform which comprised the record of my first four years of service and certain promises to which I would dedicate myself in the four years to come.

During that campaign I committed myself to a constructive discussion of Pittsburgh's municipal government.

That discussion was thorough, wide-spread and complete.

The people of Pittsburgh have been made fully acquainted with my views on every matter that is vital to their welfare, their progress, the safety and the protection of their lives and of their properties, and the development of conditions which will conduce to the prosperity, the happiness and the contentment of themselves and of their children.

Therefore, in this inaugural message I shall deal very concisely with the work which lies before us and the problems which should be attacked during the term which has just begun.

Here is the program:

1. Rapid transit and a relief from traffic congestion in the downtown section is needed just as soon as it can be obtained. City Council has before it plans for a downtown subway loop. We should get together at once and agree on what is the best course to pursue and then use every agency known to man to produce an actual result for the people we are paid to serve.

Finances to the extent of \$6,000,000 have been available for this purpose for ten years. Further delay will be inexcusable. We must put that money to work in an intelligent manner which will bring a productive result. Results, and not explanations, are what the people desire. We must, as soon as possible, eliminate street car traffic from the surface of the Golden Triangle.

2. Just as soon as finances are available we must widen and reconstruct old surface thoroughfares and provide new arteries of travel to further lessen the load on our present highway system.

3. Free Sunday night movies in the parks must be made a permanent attraction for our people and the plan must be expanded so as to reach every section. The popularity of this entertainment was proven by a short experience last summer. Pittsburgh was the first city to provide this for her people. Let us proceed to complete the job.

4. Great cities remain great and become greater by holding and adding to their population. To accomplish this a city must be made attractive. An effective method with which to produce such a result is

to popularize our parks. They are gifts of nature which by the hand of man have been transformed into gardens of recreation and relaxation, for all of our people. Let us make their charm more magnetic.

5. We refer with pride to the great wealth which reposes in our banks; to the tonnage of manufactured products which comes from our mills; to the products from our workshops, but let us never forget that the most precious assets which this community has are the boys and girls of today who, on the none too distant tomorrow, will take your place and mine and be the pillars upon which will rest the weal or woe of society. If we expect them to have clean minds and pure hearts their environment must be such as to ensure healthy bodies. Therefore, we must give most serious thoughts of all to the development and expansion of our playground system. We have been providing our present holdings with modern and attractive equipment. We should complete this undertaking. But we should remember that we have many communities which are bound to expand and increase in population and we should proceed, without delay, to acquire additional playground sites, so that when we face the issue in the future the cost of property in those particular communities will not be prohibitive.

6. Further development of our river facilities should proceed. This comprises an intelligent program along four lines: (a) flood prevention which will eliminate great property loss; (b) transformation of wharf space into useable real estate in the Golden Triangle; (c) beautification of our river fronts which will make these gifts of nature an ornament rather than an eyesore to our city; (d) better transportation by water, thereby cheapening the cost of many essential commodities.

7. By an act of assembly which was sponsored by me, a housing commission was created during my first term. It is composed of some of our most public-spirited citizens. We must vitalize this new agency by giving it our patriotic interest and our financial support. This, in order that Pittsburgh may rid herself of tenement houses so that all of our people will abide in surroundings which are sanitary, modern, comfortable and convenient and which will make life worth living.

8. This same new agency is charged with the responsibility of securing new and diversified industries for this city. We have been depending for years upon the

steel and iron industries which made us great. We have found by experience that when a slump came in those industries, a general depression was the result. We must foster our parent industries but we must give not only thought but effort towards acquiring and attracting diversified industries, not only to take the place of those that may leave us, but to so order conditions that when a slump comes in one line, the unemployment situation may not become general.

9. The metropolitan district idea should be transformed into a reality. Other competitors with less merit are passing us in the race for civic supremacy. The blame for this can be laid to our own doors. When we claim for Pittsburgh that to which she is justly entitled, we will place her upon an equal standard with the other great metropolitan districts of our land.

10. We must adopt a policy of placing Pittsburgh first. We must not be narrow nor provincial. But I believe that there are in Pittsburgh some men capable of doing almost any job we have, no matter how big it may be. Therefore, we must give preference to the employment of Pittsburghers, not only in municipal work, but in every private enterprise.

11. The question of local taxation must be thoroughly studied and solved. Due to increased expenditure it was necessary to raise the tax rate for 1930. Considerable dissatisfaction and protest followed. This was because of the fact that it has never been thoroughly explained to our people that under the laws of Pennsylvania real estate only can be taxed for local government purposes. In other states the municipalities have other sources of revenue. It, therefore, appears on the surface, unless explained, that the cost of running the government in Pittsburgh is greater than in other cities. The facts, however, do not sustain such an impression. But I am willing to concede that it is fair, right and proper that real estate should not bear all the burden of local government. New sources of revenue should be found. At an early date I intend to appoint a tax commission which will thoroughly study this subject from all angles—if necessary, visit other states and cities in its investigation and report in time to enable me to offer any legislation, which may be necessary, to the next General Assembly in order to relieve real estate of the burden of paying the entire cost of city government. In

this movement I would ask the co-operation of City Council.

12. We must stop advertising Pittsburgh's faults and begin broadcasting Pittsburgh's virtues, and to work in a general way for our city so that she may not only hold the proud place which she now occupies, but surpass every other community in the forward march of great American municipalities.

But other agencies beside that of your city administration must be employed to guarantee the consummation of this program. We will do our best but to succeed we must have the support of Council, of the press and of our entire body of patriotic citizens.

Our task will not be easy. Many obstacles that may look like impossibilities in the beginning will be encountered.

But with Divine help, which I now invoke, and this loyal support which I now invite, every impediment will be overcome and every objective will be reached.

Four years ago I dedicated myself to the duties of this position. I said that the task would be a labor of love.

By virtue of the voice of the people, spoken through the medium of the ballot, which is the most sublime right of an American citizen, a matchless reward has come to me by a vote which was unmistakable in its meaning.

No human breast could remain insensible to such a tribute.

No human soul could fail to respond to the inspiration of such superb approbation.

With such manifestations of affection, regard and respect from my fellow-citizens as a priceless possession, which neither time can destroy nor rust can corrupt, I shall apply myself to the task at hand, buoyed up by the faith and bulwarked by the hope that in the lexicon of Pittsburgh there is no such word as fail.

By authority vested in me by law, it becomes my great pleasure to swear in as City Controller of the great City of Pittsburgh, Mr. Daniel Winters.

And Daniel Winters being present took and subscribed to the oath of office as City Controller, which was administered to him by the Mayor, Charles H. Kline.

And the Mayor said:

It is a great pleasure, indeed, to tell you that we have on this platform today two

ex-Mayors, and I know of no ex-Mayors who are more beloved by the citizenry of the City of Pittsburgh than Honorable Joseph G. Armstrong and Honorable E. V. Bahcock. I am going to have them make a few remarks, and that will be all the speaking today. After that it will be Mrs. Kline's and my pleasure, as well as the members of my cabinet, to meet you in my office. At that time you will have an opportunity of saying, "Well done, thou good and faithful servant."

May I present to you a man who has been ill for some time, but it pleases me, and I say that from the heart, that he is strong enough to come here today to see me sworn in as the Chief Executive of the City of Pittsburgh. I take pleasure in presenting the Honorable Joseph G. Armstrong.

Honorable Joseph G. Armstrong, County Commissioner, said:

Mr. Mayor, Mrs. Kline and Friends: I am certainly glad to be here today. I have known "Charley" Kline for many years. In 1913 when I was a candidate for Mayor, no man did more for me than "Charley" Kline. He owned a machine, and we did not have so many machines at that time, and he drove me around from one meeting place to another; he paid for the gasoline and kept the car active on the public highways.

Mayor Kline has served the city as its chief executive for four years, and those four years have been a success, and I am confident that the next four years will be a success. We heard a lot of stories about Mayor Kline, which in some instances were not nice of him, but after the balloon has gone up and bursted, there was nothing to all this stuff. He is the same "Charley" Kline as he was when he was in the Legislature. Everything within the bounds of fairness and decency he was there to do, and that is what he did for four years as Mayor, and he is going to put in four more years, and after he has completed this term I am sure the people will be pleased to give him four more, and I hope to be here in that crowd.

Mayor Kline said:

I have the honor of presenting the other gentlemen whom I spoke about, who just returned from Florida to be here on this occasion, the colleague of Joseph G. Armstrong in the Commissioner's Office, and as I said before, was formerly

a mayor of the City of Pittsburgh. He had a bad cold and was reluctant to leave that climate to come up here, because the weather was very cold here. However, the weather changed and it is much warmer today than it had been, and I hope he has become acclimatized to this weather. He is a gentleman who worked hard, not only for the people, but for the Republican Party of the State and Nation, and of whom there are words of praise and honor on the lips of every man and woman of this community. I take pleasure in presenting the Honorable E. V. Babcock.

Honorable E. V. Babcock said:

Mayor Kline, Mrs. Kline and Friends: I came today to be with his excellency. I did not expect to be called upon to address you, and now that I have been, I do not know what to say. My dear old friend, Joe Armstrong always has a word from the heart to the heart of the people of Allegheny County, and in that respect he can lead me a long ways. I sat here revelling in the conditions that exist around the Mayor this morning. I never saw such beautiful decorations, never saw assembled in Pittsburgh such an enthusiastic, warm audience, an audience with its heart true and loyal, which means friendship. I never saw it so manifested as I see it today.

That kind of friendship controls the destinies of the world. You cannot get away from it. It is this kind of friendship that puts him back in the Mayor's Office for another four years.

I listened attentively to every word in that inaugural address. It is one of the most matchless papers that I ever listened to by any public official any place in the United States. He cannot say all of that without meaning some of it; and if he delivers 25 or 50 per cent of it to you, the citizens of Pittsburgh, he will make the greatest Mayor that Pittsburgh has ever had in its history. I do not know how to refer to that address. I do not command language strong enough to describe it. I hope the press will run it. I hope every word will appear in our public press, so that all the citizens of Pittsburgh will know what his aim and ambitions are. It will be something for them to think about, and especially a lot of them that did not want him to succeed himself.

True I was in Florida a few days ago and true I came home with some reluct-

ance, because there were many attractive things there.

Notwithstanding this I came home to greet my dear friend, Mayor Kline, and to be with him on this auspicious occasion. I am glad Mayor that you gave me an opportunity to say a word to all your friends here. It certainly is a pleasure to any human being to be with you on this occasion.

From the bottom of my heart I wish you success and hope you get nothing but comfort and happiness out of your work.

Mayor Kline said:

The last part of Mayor Babcock's speech I pray for.

By virtue of the fact that we swore in for the unexpired term of two years our City Controller, this meeting would not be complete if we did not hear a few words from the newly elected City Controller, Mr. Daniel Winters.

Mr. Daniel Winters, City Controller, said: Mayor Kline, Mrs. Kline, Ladies and Gentlemen, all: It is not my purpose to take up much of your time as I realize that the ceremonies this morning were to be along different lines. I am sure that Mayor Babcock would have that plank in every inaugural address that he has referred to.

I want to congratulate the Mayor upon his election. He knows that both times he had no more loyal supporter and no one wished him a better administration than I did, and I wish him success in the next four years.

This Controller business has become a habit with me and I believe I am the most-sworn in Controller the City has ever had. When I meet the Mayor in the hall, he says, "Hold up your hand!" I think that this will about settle it. It has been very trying to me, this continual swearing in of office, but it was done on the advice of the City Solicitor, Charles Waldschmidt, who never makes a mistake.

I want to congratulate my friend, John S. Herron. Since 1911 he is the second man to be elected President of Council three times. The other great man who served three times modesty forbids me mentioning his name.

I regretted leaving Council where I enjoyed my association with the other members for 10 years. It was a great pleasure and I enjoyed myself, and I shall do my

best in the Controller's office to continue to merit that friendship.

It must be remembered that while the Executive and Legislative Branches have certain functions to perform, under the law, the Controller exercises supervisory influence over both of them.

I am indeed happy to be here at this inauguration again of Mayor Kline. As Mayor Babcock said it was a wonderful speech. It is not what a man says, but what he does, that the people shall know him. "By their deeds you shall know them, and not by their words!"

Four years ago we had a harmony agreement, in which all the political forces centered upon him; but this time he had to fight for this position. He won and he has a right to enjoy it to the fullest extent. I wish him a successful administration, and if it is, all the citizens of Pittsburgh will profit by it. Public service means nothing unless you have won the respect and admiration of the people whom you serve.

Mayor Kline said:

We are all enjoying it so much, that I hope you will bear with me a few moments. You know prior to becoming Mayor of the City of Pittsburgh it was my honor to be a Judge of the Common Pleas Courts of Allegheny County. For seven years I knew no trial or tribulations of public life, except those connected with the law. While on the bench I came in contact with 13 other judges, and one stood who out most prominently and one whom I looked upon as a father more than I did as a co-worker in a legal way, has done me honor today to see me sworn in as Mayor. He is loved and admired by all the people of Allegheny County, and received the greatest vote of the electorate when he was a candidate for office, and I hope he will sit on the bench until he can see no one in front of him. I take pleasure in asking if my good friend, Honorable Josiah Cohen, will not say a few words to his friends.

Honorable Josiah Cohen said:

Mr. Mayor, Members of Council, Ladies and Gentlemen: This is a very distinguished honor—the more valued because it was not sought. The occasion is a great surprise to me. It is quite true that for many years "Charley" Kline sat on the Common Pleas bench side by side with me and the other judges. True, his administration was a success, and his administration as Mayor

of the City of Pittsburgh has been the embodiment of the principles of right. That is what he fought for; that is what he advocated as a judge and that is what he practiced as Mayor of this great City of Pittsburgh.

Mayor Kline how proud you, and how much prouder your dear wife should feel on this occasion, to have been elected in such a vital contest as dominated the late campaign for the election of a Mayor; how proud that you have downed all your adversaries and rising aloft in the estimation of the public have carved out a name and a comparative fame which will live in the history of Pittsburgh forever!

On one of the grandest monuments that the world has ever conceived there stands written: "If you will behold my monument, look around!" And with equal pride the Mayor of the City, my friend, Judge Kline, can say, "If you would behold my monument, look around, and see what I have done to advocate and to advance the interests, the comfort and the safety of the people of this great City of Pittsburgh."

Here is a man all of heart. It is a peculiar characteristic of the Mayors of the City of Pittsburgh—old "Joe" Armstrong and Mayor Babcock, the younger man. They are men of nobility of heart and of character, and have carved their way down through the darkness of the night of opportunity into the light of a living day. All hail to these men who have grasped the golden opportunities of American life and stand before you as models of what can be accomplished when a man pursues a life devoted to the cause of God and humanity as these men and as your Mayor has done.

Mayor you deserve what you got. When I heard Babcock criticize your inaugural address he did not overlook its value, and I am sure in the coming years you will realize in a positive way the beauties of the sentiments that you promised in that speech. May God bless you and your dear wife!

Noes none.

And a majority of the votes of Council being in the affirmative, the nominations were approved and confirmed.

The Chair also presented

No. 6 City of Pittsburgh,
Office of the Mayor,
January 6, 1930.

To the President and Members of Council,
City of Pittsburgh.

Gentlemen:

I have the honor to inform you that I have appointed Mr. Roy D. Schooley, 4740 Maripoe St., Pittsburgh, Pa., as Treasurer in and for the City of Pittsburgh, and ask for your immediate confirmation of the same.

Respectfully yours,

CHARLES H. KLINE,
Mayor.

Which was read, received and filed.

Mr. English moved

That the nomination by the Mayor for City Treasurer be approved and confirmed.

Upon which motion, the ayes and noes were taken agreeably to law, and were:

Ayes: Messrs.

Alderdice	Kambach
Anderson	Little
Connelley	Muldowney
English	Herron (Pres't.)
Garland	

Ayes 9.

Noes none.

And a majority of the votes of council being in the affirmative, the nomination was approved and confirmed.

The Chair also presented

No. 7
Carnegie Free Library of Allegheny,
Pittsburgh, North Side, Pa.,
January 7, 1930.

To the Honorable Body of the Pittsburgh Council:

Gentlemen:

Please accept this as my resignation as Director of the Carnegie Free Library of Allegheny, to take effect today, January the sixth.

Sincerely yours,

C. B. CONNELLEY.

Which was read, received and filed.

Mr. English moved

That the resignation be accepted.

Which motion prevailed.

Mr. Little arose and said:

Mr. President, It is with a great deal of pleasure that I present the name of David D. Cadugan as the successor of Mr. Connelley as Librarian of the Carnegie Free Library of Allegheny.

Mr. Cadugan has been chief clerk of the Department of Public Works of the City of Pittsburgh for many years. He is now Chief Clerk in the Road Department for the County of Allegheny, which position he has held for several years.

He is a young man in years, but old in the service of the City and County.

Mr. Cadugan has the ability and all the qualifications necessary to make a good Librarian, and I believe he will be a credit to the City of Pittsburgh and the Library.

Mr. English arose and said:

Mr. President, I will offer a motion, that

we close the nominations on the name of David D. Cadugan. I want to take this opportunity to say a word in behalf of this young man, who was a clerk in the Department of Public Works, when it had the best director, during the months of November and December of 1913.

The Chair said:

In case any of you folks don't know who that director was, he just spoke.

Mr. English moved

That the nomination close on the name of David D. Cadugan.

Which motion prevailed.

And the Chair ordered the Clerk to call the roll on the name of David D. Cadugan.

And the result of the voting was as follows:

For David D. Cadugan:

Messrs.

Alderdice	Kambach
Anderson	Little
Connelley	Muldowney
English	Herron (Pres't.)
Garland	

Ayes 9.

Noes none.

And David D. Cadugan having received a majority of the votes of Council, was declared duly elected to the position of Librarian of the Carnegie Free Library of Allegheny.

The Chair at this time announced the appointment of the following Committee Chairmen:

Mr. English, Committee on Finance;
Mr. Little, Committee on Public Works;
Mr. Alderdice, Committee on Public Service and Surveys;

Mr. Garland, Committee on Filtration and Water;

Mr. Connelley, Committee on Parks and Libraries;

Mr. Kambach, Committee on Public Safety;

Mr. Anderson, Committee on Public Welfare;

Mr. Muldowney, Committee on Health and Sanitation.

The Chair also appointed as members of the Sub Committee of the Allegheny Carnegie Free Library, Messrs. Little, Connelley and English.

Mr. English stated

That, if satisfactory to the members, the Budget Sessions would commence on Wednesday morning at 10 o'clock.

And on motion of Mr. Alderdice, Council adjourned.

DEPARTMENT OF PUBLIC WORKS

January 10, 1930.

Subject: Improvement Schedule for 1930.
President and Members of Council.

City of Pittsburgh.

Gentlemen:

I am submitting herewith an estimate of the probable schedule of improvements for the Department for 1930 and data relating thereto. This estimate is confined exclusively to improvements under contract except where, in the case of the Bureau of Water, some of the pipe line work is carried out by the city forces.

The program of the Department will necessarily be limited by the extent of the funds provided by Council either in the shape of budget appropriations or bond issue.

Accompanying herewith is a tabulated statement entitled "Summary Statement of Estimated Departmental Improvement Program for 1930", which is a classified statement giving the total estimated costs of funds available and a split up of the cost between contracts, damages and engineering. Reference may also be made to the detailed statements from which this summary statement was compiled.

Checking up the program by the several groups into which improvements may be divided, I submit the following:

Improvements for which funds are available	Total Cost.
Contracts chargeable to available balances in 1926 and 1928 bond funds	\$ 2,294,400.00
Assessment improvements authorized by ordinance and not awarded January 1, 1930.....	963,000.00
Estimated budget appropriations for contracts	850,000.00
Total.....	\$ 4,107,400.00
Improvements not financed including commitments and unfinished projects	6,015,000.00
	\$10,122,400.00
Deduct appropriation and bond fund and city credit for authorized projects	\$ 4,107,400.00
Special bond and other funds available	887,000.00
Amount which cannot be charged against Bond Fund 293.....	898,000.00
Total Deductions.....	\$ 5,892,400.00
Net deficiency in order to finance program as submitted.....	\$ 4,230,000.00
In addition to the foregoing program the total \$10,122,400.00 under allowance is made	

for current contracts of Overbrook Borough which has just been annexed and no allowance made for additional assessment improvements which may be financed in whole or part out of Bond Fund 293—General Improvement Bonds of 1928.

The amount of street and sewer assessments which might be carried out in addition to the foregoing program may normally range from \$1,500,000 to \$3,000,000 dependent upon the extent of the City credit.

With reference to the status of Bond

Fund 293—General Street Improvement Bonds of 1928, beg to advise that the balance as of this date is \$3,196,000.00 and if the charges proposed in the accompanying improvement program are made against this bond fund, such charges would amount to \$898,000.00 which will leave a net balance in this bond fund for further improvements of \$2,298,000.00.

Yours very truly,

EDWARD G. LANG,

Director.

DEPARTMENT OF PUBLIC WORKS

January 3, 1930.

President and Members of Council,

City of Pittsburgh.

Gentlemen:

In accordance with your request for a report in connection with Bill No. 6944—being a petition of property owners in Ross Township, asking for an appropriation for City water in said district, I would submit the following report.

During July, 1929, a similar request was

made to your honorable body and was listed as Bill No. 5487. A request was made for a report on same, which was done on July 25, 1929, in which it was estimated that it would cost approximately \$50,000.00 to supply water to this territory, and as there were no funds available in any of the Bureau of Water accounts for work of this character and size, a request was made that you appropriate the necessary funds for the performance of the work. In your reply on this report, dated July 31, 1929, you advised that this and any similar cases be brought to the attention of Council about October 1, 1929, so that it might be considered as a budget matter.

In the Bureau of Water Budget for 1930, under the heading of "Structural and Non-Structural Improvements", this item was listed. This item and several others of a similar character—totaling \$530,000.00, were eliminated by the Mayor or with the recommendation that improvements of this sort should be financed by the sale of bonds. Improvements of this character, no doubt, should be financed as recommended.

Inasmuch as residents of that part of Ross Township, recently annexed to the City, expected the privilege of being supplied by City water, it is recommended that early action be taken to provide funds for pipe line extension into this territory; this improvement would cost approximately \$50,000.00.

Attached hereto please find copy of our report to you, under date of July 25, 1929, prepared by the Bureau of Water, also copy of reply from you on same.

Yours very truly,

EDWARD G. LANG,
Director.

Whereas, The 11th day of October, 1779, is the date in American history of the heroic death of Brigadier General Casimir Pulaski, who died from wounds received on October 9, 1779, at the siege of Savannah, Georgia; and,

Whereas, The States of Indiana, Wisconsin, Michigan, Ohio, South Carolina, Pennsylvania, New York, Minnesota, Maryland, New Jersey, Illinois, Rhode Island, New Hampshire, Nebraska, Massachusetts, Georgia, Missouri, and other States of the Union, and United States Congress have by legislative enactment designated October 11, 1929, to be "General Pulaski's Memorial Day"; and,

Whereas, It is fitting that the recurring anniversary of this day be commemorated with suitable patriotic and public exercises, observing and commemorating the death of this great American hero of the Revolutionary War; Therefore, be it

Resolved, That the Council of the City of Pittsburgh, Pennsylvania, respectfully memorializes the United States Congress to enact legislation providing for the effective carrying out of the provisions of the said Bill, whereby the President of the United States would be authorized and directed to issue a proclamation calling upon officials of the Government to display the flag of the United States on all Governmental buildings on October 11th of each year, and inviting the people of the United States to observe the day in schools and churches, or other suitable places, with appropriate ceremonies, in commemoration of the death of General Casimir Pulaski, Revolutionary War Hero; and, be it further

Resolved, That the Clerk of Council is hereby directed to transmit a copy of this Resolution to Hon. George S. Graham, M. C., Chairman of the Judiciary Committee, Washington, D. C., and to each of the United States Senators and Representatives in Congress from the State of Pennsylvania. Which was read.

City of Pittsburgh.

Gentlemen:

We understand from the Chief Engineer, City Planning Commission, that the University of Pittsburgh, Mellon Institute and Board of Public Education dedicated certain property for the widening of Bellefield avenue, from Fifth avenue to Forbes street, and that in 1928, a motion was adopted by Council to the effect that funds in the amount of \$52,000.00 would be provided in the budget for 1929, for the physical improvement of the thoroughfare to provide a 36 foot roadway and two 29-foot sidewalk spaces.

Funds were not provided in the 1929 budget for this improvement and we are accordingly writing to your Honorable Body at this time calling your attention to this matter, asking advice as to whether this Department shall prepare and present to Council an ordinance authorizing said physical improvement, leaving the code account blank, setting aside the funds for the cost of same, or will said improvement be included in the Repaving Ordinance which will, in the near future, be prepared and presented to Council.

Yours truly,

EDWARD G. LANG,

Director.

Council of the City of Pittsburgh.

Gentlemen:

On Bill No. 138, Resolution asking the City Solicitor to inform Council as to the jurisdiction of the Art Commission relative to the erection of a statue at the Point in Honor of George Rogers Clark, which was read and adopted at your meeting held January 20, 1930, I advise you as follows:

The Art Commission was created by the Act of May 12, 1911, P. L. 291. The second section thereof, after defining the term "work of art", continues:

"Hereafter no work of art shall become the property of the city, by purchase, gift or otherwise, unless such work of art, or the design of the same, together with a statement of the proposed location of the same, shall first have been submitted to and approved by said Art Commission, acting by a majority of all its appointed members; nor shall any work of art, until so approved, be erected or placed in, over or upon, or allowed to extend in, over or upon, any street, avenue, square, place, common, park, municipal building, or other public place, under the control of the city or any department or officer thereof."

The Art Commission by its creation has the right to approve the design and the location upon public property.

Section 3 of said Act provides:

"The commission may volunteer advice or suggestion to the owners of private property in relation to the beautification of the same; and any citizen or person, who may be about to erect any building or make any improvement, may submit the plans and designs thereof to the Art Commission for advice and suggestion. And the Art Commission may receive and act upon the complaints and suggestions of citizens or voluntary associations having such objects and purposes in view as are aforesaid; and in acting upon the recommendations of the Art Commission the councils of the city may make full exercise of the police power, by ordinance."

Technically, the Art Commission is an administrative body and should act upon designs submitted or locations suggested,

and if they volunteer advice or suggestions it should be to owners of private property. Therefore, I am of the opinion that this is simply volunteered information of the Commission, and at this time there have been no designs or actual location suggested. As the Resolution of the Art Commission requests the withdrawal of the Bill by Senator David A. Reed introduced in the United States Senate, having for its purpose the erection of a statue at the Point in honor of George Rogers Clark, Revolutionary hero, it looks as though the same is an official act of the City of Pittsburgh. This prerogative applies alone to the Mayor and Council, and I am of the opinion that at this time the Art Commission has passed upon matters of which it has no actual knowledge, plans or designs, or even definite locations, and may be considered the least bit anticipatory in its action.

Respectfully yours,

CHARLES A. WALDSCHMIDT,

City Solicitor.

MOTIONS AND RESOLUTIONS.

Mr. Little presented

No. 189.

Article appearing in the Pittsburgh Medical Bulletin of January 25, 1930.

An Up-To-Date "Rattler"

Dr. Ray Lyman Wilbur, in commenting in his address delivered last week at Carnegie Music Hall, on one of the menaces to child life peculiar to our modern industrial type of civilization, very tritely contrasted the advice of the mother who lived in the open spaces to her child to beware of the rattlesnake, with that of the mother living in more congested areas who warns her child to beware of the motor car.

We, in Pittsburgh, be we downtown pedestrians or uptown mothers, who have "enjoyed" Pittsburgh's taxicab strike, are inclined to believe that the striking drivers have unconsciously demonstrated one means by which city authorities may do much to restore the long lost but frequently referred to rights of the pedestrian. The absence of several hundred moving or standing taxicabs from the streets of Pittsburgh's Golden Triangle during the last ten days has produced almost heavenly conditions in the city traffic. We are sure their absence has been appreciated by pedestrians and traffic officers alike, and while we admit their necessity in the present plan of modern urban living, we urge upon Pittsburgh's city authorities the advisability of curbing the "cruising" and parking privileges of the common carrier popularly called the taxicab.

Dr. Wilbur contrasted the few deaths from snake bite with the tens of thousands

of deaths caused annually in the United States in traffic. We believe that those of us who make use of taxicabs could well afford the loss of a few second's time and the increase of a few cents in cost per mile in transportation that would result from the forcing of "cruising" or parking taxis from downtown streets into their own private parking space, from whence they might be summoned when needed. We have had this practical demonstration, now let us sacrifice a little convenience and smartness on the part of the occasional taxicab passenger for the safety of the pedestrian, be he child or adult.

Incidentally, it would be interesting to know, through the office of the Coroner and the various city hospitals, how much—if any—injuries and deaths from traffic accidents were reduced between January 12 and the date of the reappearance of several hundred "cruising" taxis on our city streets.

Which was read, and on motion of Mr. Little, received and filed, and copy referred to the Better Traffic Committee for report.

Mr. English moved

That the Minutes of Council, at a meeting held on Monday, January 20th, 1930, and a meeting held on Thursday, January 23, 1930, be approved.

Which motion prevailed.

And on motion of Mr. Alderdice,

Council adjourned.

President and Members of Council,

City of Pittsburgh.

Gentlemen:

In order that the contracts for the 1929 season may be awarded early in the Spring and that the engineering force of the various bureaus of the department may be kept engaged during the winter months, I respectfully request that a conference of the Mayor, Council and representatives of this department be held at the earliest possible opportunity in order that a program of construction projects may be decided upon with particular reference to bond projects for which funds are available for assessment improvements for which ordinances have been passed and for repaving.

Attention to this matter would enable the department to keep its engineering expenses to a minimum during 1930.

Yours very truly,

EDWARD G. LANG,
Director.

Pittsburgh, January 29, 1930.

Committee on Public Works of Council.

Gentlemen:

In reference to the motion adopted at a meeting of your committee, held Tuesday, January 21, 1930,

"That the City Solicitor prepare an amendment ordinance to the Zoning Ordinance providing that a charge shall be made for the printing and advertising of amendments to the zoning ordinance where they are of a private character."

I report as follows:

Ordinance No. 268, approved March 31, 1897, and recorded in Ordinance Book, Vol. 11, page 346, provides:

"That hereafter no committee shall consider or report to Councils any ordinance of a private nature, or for private purposes or benefit until there shall have been paid into the City Treasury for the use of the city the sum of \$100. to cover expense of printing and advertising of such ordinance, and a certificate of such payment be produced before such committee."

I believe this covers the motion submitted. To pass a similar ordinance for zoning ordinances only would be special legislation and might affect the validity of the ordinance.

The above ordinance is broad enough to cover the purposes, I think, that Council desires. If Council contends that \$100.00 is not sufficient to cover the cost, we can amend the ordinance above referred to, to such amount as Council might suggest.

Respectfully yours,

CHAS. A. WALDSCHMIDT,
City Solicitor.

Department of Public Works.

January 31, 1929.

Chartiers Ave. Sewer.

President and Members of Council,
City of Pittsburgh.

Gentlemen:

Referring to the contract between Vincent Mannella, contractor, and the City of Pittsburgh for the construction of a Trunk Sewer on the private property of C. F. Alker, Chas. Zickau, etc., Crucible street, private property of G. Swartz, Chartiers avenue, etc., from private property of C. F. Alker, to Danley street, east of Chartiers avenue, we have to advise that the said contractor, through no fault of his own, and by orders from the Department of Public Works, has been put to additional expense in connection with this work as follows:

The improvement of West Carson street by the Bureau of Bridges necessitated the closing of West Carson street to all traffic and diverting the same along Chartiers avenue to Steuben street, which made it necessary to close down the work on the sewer construction on Chartiers avenue from Sept. 28th to the present time. The contractor, Vincent Mannella, therefore, was authorized on Sept. 28th to remove all his material and equipment from Chartiers avenue and resume work on or about the first of the year when proper notice would be given by the Department. The said contractor removed his material and equipment which he had for the construction of this

60-inch Trunk Sewer to his yard in Brush-ton. He has been notified to resume work on said contract and rush the same to completion so as to have the same finished before starting the repaving of West Carson street by Booth & Flinn about March 1st.

The condition of the ground at the present time, containing about two (2) feet of frost on Chartiers avenue is causing additional expense to the contractor which he would not have had if he could have continued his work in September. The moving of his plant and material to and from his yard in Brushton and the additional cost in removing the two (2) feet of frost will cause an additional expense of about \$5,000. We will not proceed with the extra work until your Committee by motion, has approved same and the Department so notified.

Yours truly,
EDWARD G. LANG,
Director.

MOTIONS AND RESOLUTIONS.

Mr. English presented

No. 232.

Whereas, The City of Pittsburgh is vitally interested in the construction of the Lake Erie and Ohio River Ship Canal project, and deem it will be of great benefit of the States of Pennsylvania and Ohio; and,

Whereas, The State of Pennsylvania has expended about \$250,000.00 on this project for investigation surveys, maps, etc., and the citizens of Pittsburgh have expended about \$60,000.00 over a period of several years for similar studies, because these public-spirited citizens believe this project will be of great benefit to the Pittsburgh District; and,

Whereas, There are many large industries, including coal mining, in the Pittsburgh District which will use to a large extent this canal when completed; therefore, be it

Resolved, That the Mayor and Council of the City of Pittsburgh heartily endorse the construction of this project and petition the United States Engineers on Rivers and Harbors to recommend this great project to the Congress of the United States, because the Mayor and Council believe this project will be a benefit to our community and will serve the large coal, steel and manufacturing interests as well as mercantile interests of the district, and that the increasing tonnage from this district will be adequately taken care of by river and canal to the Great Lakes and thence to the Sea.

Which was read.

Mr. English moved

The adoption of the resolution.

Which motion prevailed.

SUBJECT: ALLOCATION OF STATE AID FUNDS

President and Members of Council,

City of Pittsburgh.

Gentlemen:

We submit herewith for your information a detailed statement showing the proposed allocation of State Aid Funds for the improvement of streets in the City considered by the State as parts of through State thoroughfares. The State has allocated the total sum of \$217,453.40 for improvement of streets in the City of Pittsburgh forming part of State through highway systems. The State and not the City selects the routes upon which these State funds are to be expended, and at a conference with Council held July 15th, 1929, at which were present the State and City Engineers, the following program was adopted:

Perrysville Avenue
Lebanon Street
Dallas Avenue

Noblestown Road
Dinsmore Avenue
Carson Street, West

Of the above listed proposed improvements, Carson Street West, from Corliss Street toward Steuben Street, is now under contract, with funds allocated as follows: State Aid, \$44,000.00; City—physical work, \$56,000.00; damages, \$95,000.00. The City's share is paid out of Bond Fund No. 296. The only proposed change from the original program as adopted in July, 1929, is the elimination of Dallas Avenue and the addition of route 330. State Road in Overbrook Borough, at the State's request. The funds for Overbrook Borough Route No. 330 are more than covered by the saving between the original estimate and the contract as awarded for Carson Street West. The program now proposed is as follows:

DESCRIPTION	City's Share	State Funds
Carson St. West, Cont. No. 1—Corliss to pt. nr. Steuben.....	\$151,000	\$44,000
Perrysville Ave., widening from Franklin Rd. to Ivory Lane, about 1200 ft. in length. This is a State and County proposition for physical improvement where relocation requires City to pay property damages	10,000	13,000
Route No. 330—State Highway through Overbrook Boro. This route is in reality a continuation of Saw Mill Run Blvd. and will, when completed through, result in the shortest and most direct route between the City and Brownsville, Pa. Appr. length within city 2600'. Roadway 30'. The City's portion extends from line dividing Overbrook and Baldwin Twp. north to Main St. in former Boro of Overbrook, and is part of the old Fairhaven Road.....		27,453
Lebanon St., in former Hays Boro. The State is completing a roadway extending from the Lebanon Church Road, which leads to the new County Airport toward the City. An additional length of 2000 ft. is located in the former Boro of Hays, now a part of the City, which would connect the road now being constructed by the State with the Carson Street-McKeesport Road, and provide a direct and very short connection between City and new County Airport—City's share includes \$50,000 estimated damage. We believe the City's share can be paid from Bond Fund 293....	145,000	25,000
Noblestown Road. This thoroughfare, which is part of Mansfield Avenue, from Obey Avenue to the point where the road crosses the Railways tracks leading to Carnegie, is a direct route considered by the State as part of the Lincoln Highway. The present program provides for widening and reimprovement to obtain a 36 ft. roadway, 30 ft. of which will be paid as State Funds and 6 ft. by the City. City's share will include damages..	50,000	82,000
Dinsmore Avenue. This is a continuation of Mansfield Avenue, toward Crafton, where it is proposed to make a slight change in grade to eliminate a steep grade and increase the width of the present paving to obtain a 30-ft. roadway, 20 feet of which will be paid for out of State Funds and 10 feet by the City. City's share, including damages	32,000	28,000
		\$219,453.00

This is slightly in excess of the appropriated funds, but the letting of contracts will undoubtedly result in the bids being less than the allocated funds.

Your attention is called to the portion of Carson Street West, from Corliss Street to Chartlers Creek, where the City's share of the improvement would amount to the following:

Damages	\$236,000
Walls	75,000
Physical Improvement	188,000
State Aid	\$82,000

If City funds can be provided for damages and physical improvement of this portion of Carson Street, the Noblestown Road improvement could be eliminated and Carson Street substituted therefor.

We again call your attention to the fact that the State advises us that in order for the City to utilize the State Aid Fund, work involving the expenditure of these funds must be under contract before May, 1931.

Yours truly,
EDWARD G. LANG,
Director.

Approved:

TOM M. REED,
Chief Engineer, B. of E.
CHAS. M. REPPERT,
Chief Engineer, D. P. W.

Which was read, received and filed.

No. 335.

Department of Public Works.

Pittsburgh, February 19, 1930.

President and Members of Council,
City of Pittsburgh.

Gentlemen:

Referring to Bill No. 300, Resolution requesting the Director of the Department of Public Works to furnish Council with a report relative to City sewer on Breining Avenue, Brookline, 19th Ward, which was read and adopted at a meeting of Council held Monday, February 17, 1930, we are submitting herewith the following information:

Ordinance No. 772, approved Dec. 5, 1929, authorizes the construction of a sewer on the northeast sidewalk of Breining Avenue for the purpose of providing drainage for Mr. Bendle's property. The contract plan has been prepared and approved, and this work will be included in the next list advertised for proposals.

The assessment depends entirely upon the judgment of the Viewers appointed by the Court for this proposition. The property owned by Mr. Bendle will probably be assessed for part of the cost of this improvement.

Yours truly,
EDWARD G. LANG,
Director.

Which was read, received and filed.

UNFINISHED BUSINESS.

NINETY-SIXTH COUNCIL

COUNCIL

JOHN S. HERRON.....President

ROBERT CLARK.....City Clerk

EDW. W. LINDSAY.....Ass't City Clerk

Pittsburgh, Pa.,

Thursday, February 27, 1930.

Council met pursuant to the following call:

Pittsburgh, Pa., February 25, 1930.

Mr. Robt. Clark, City Clerk.

Dear Sir:

Please call a special meeting of Council for Thursday, February 27, 1930, at 1:30 o'clock, P. M., for the consideration of business from the Committee on Finance, and such other business as may come before the meeting.

Yours respectfully,

JOHN S. HERRON,
President.

Which was read, received and filed.

Present:—Messrs.

Alderdice	Garland
Anderson	Kambach
Connelley	Little
English	Muldowney
	Herron, (Pres't.)

Mr. English stated

That the Controller requested several changes in salaries in his department, as they do not meet with his approval, and

to do this in a regular manner, the changes should be made in Finance Committee.

Mr. English moved

That Council take a recess for five minutes and meet as the Committee on Finance.

Which motion prevailed.

And Council took a recess.

And the time of the recess having expired, Council reconvened and there were present:

Messrs.

Alderdice	Garland
Anderson	Kambach
Connelley	Little
English	Muldowney
	Herron, (Pres't.)

REPORTS OF COMMITTEES.

Mr. English presented

No. 342. Report of the Committee on Finance for February 25, 1930, transmitting two ordinances to council, with an affirmative recommendation as amended.

Which was read, received and filed.

Also

Bill No. 94. An Ordinance entitled, "An Ordinance making appropriations to pay the expenses of conducting the public business of the City of Pittsburgh and for meeting the debt charges thereof for that portion of the fiscal year beginning March 1, 1930, for a period of ten months, ending December 31, 1930."

In Finance Committee, Feb. 25, 1930, Read and amended by striking out and by inserting, as shown in red, and as amended ordered returned to council with an affirmative recommendation.

Which was read.

Mr. English moved

That the amendments of the Finance Committee be agreed to.

Which motion prevailed.

And the bill, as amended in committee and agreed to by council, was read.

Mr. English moved

That Rule VIII be suspended, providing for the mailing of printed copies of all ordinances and resolutions, after being returned from committee, to each member of Council at least 48 hours previous to the consideration of such bills by Council.

Which motion prevailed.

Mr. English moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Garland arose and said:

Mr. Chairman, I would like to ask why the North Side Carnegie Library set-up has been brought in differently from the East End main library?

Mr. English arose and said:

Mr. Chairman: The answer to the gentleman's question is that Mr. Connelley had been Librarian at the Northside Library for several years. He is now a member of this Council and was in a better position, as a member of Council, to make known needs and requirements for the Northside Library. Mr. Connelley requested an adjustment of salaries, which the Committee believed would make for better efficiency. For my part, as one member of Council, I think we should pay considerable attention to a member of Council who has had the experience Mr. Connelley has had in library work.

Mr. Garland said:

He evidently looks upon it differently now than he did last fall when as Librarian he presented the budget, but that is aside from the question. I cannot see why the North Side library is more sacred than the East End library. The stenographer at the East End library gets twelve hundred sixty dollars—which is not enough—and the salary of the stenographer at the North Side library was raised from twelve hundred and six dollars to sixteen hundred twenty dollars. If the stenographer on the North Side is to get sixteen hundred twenty dollars, the lady in the East End should get more than twelve hundred sixty dollars. The discrimination does not look good; it appears as though you people did not think right when you did that. I would say that sixteen hundred twenty dollars is not too much for a good stenographer. Dean Connelley was probably all

right in giving her sixteen hundred twenty dollars, but I must say that it is not fair to the stenographer at the other library.

That method has been used all down the line. The cataloguers in the North Side Library do not have any more to do than in the main library, and yet the new Budget gives them a higher compensation. This was not brought up in the committee at any time. We got the new budget a few days ago, with notice that it must be passed on Thursday or Friday of this week, so as to permit the activities of the City to continue.

Mr. English said:

I agree with the gentleman in his statement that salaries at the Carnegie Library in Pittsburgh are too low. I am ready to join with him, or any other member of Council, in rearranging the salaries of the Carnegie Library in Pittsburgh, but I would remind the gentleman that the Library in Pittsburgh is run in a different manner than the Library on the Northside. The library on the Northside was the first library given by Mr. Carnegie—it ties up inseparably with the old City of Allegheny, and the people of Allegheny. Every member of this Council, except the last set of new members, has always looked upon the two libraries as separate institutions. They have never combined and the people of the Northside are opposed to uniting their library with the Carnegie Library of Pittsburgh. The Northside Library is operated entirely by the City itself. The Pittsburgh Carnegie Library is run by a Board of Trustees, created by Mr. Carnegie, and the members of Council are automatically made members of the Board of Trustees of the Pittsburgh Library owing to the fact that the City gave the land on which to erect the Library Building and the Carnegie Tech School. That is why seven members of the City Council are members of the Board of Trustees of Carnegie Institute and Library and they are appointed in recognition of the city's interest in the property. The appropriation budget for the Carnegie Library of Pittsburgh was made up by Library officials and the Pittsburgh Library is operated as an institution, separate and distinct from the City of Pittsburgh's activities. On the other hand, the Carnegie Library of the Northside is a City function and part of the regular City activities, and has always been such. If any member of Council is opposed to this appropriation bill because of a difference in the salaries of the two libraries, certainly the proper thing to do is to adjust the salaries of

the Pittsburgh Library rather than attack the adjustment which has been made for the Northside Library.

Mr. Garland said:

That is all aside from the question. We are the only appropriating body for both libraries, there is no other. I am simply calling attention to it. It is not the right thing to do. I believe they both should get sixteen hundred twenty dollars, or more. If the young lady is a good stenographer, she is entitled to it. It seems to me that partiality has been shown in this and many other instances throughout the budget.

Mr. English said:

I do not agree with the gentleman when he states that this Budget was made "in the dark", was "secret, illegal", etc. If there is to be any comparison between the way the budget was made for the Pittsburgh Library with the way the budget was made for the Northside Library, it might be well to remind the gentleman of what actually happened. As to the Pittsburgh Library, the Head Librarian and the Trustees of the Carnegie Library of Pittsburgh, met with the members of Council who were on the Library Committee in the Mayor's office, and in a few minutes—not over 15 all told—we were advised that the Pittsburgh Carnegie Library requested an increase of \$39,000.00 for 1930. There was no discussion of a single item or a single salary, or anything else in that conference; the members of Council accepted the statement of Mr. Church, the President of the Board and Mr. Munn, the Librarian, who are in active charge of the Carnegie Library of Pittsburgh, and without any argument or quibbling at all, the members of Council were satisfied and agreed to grant the increase of \$39,000.00 for 1930.

As to the Northside or Allegheny Library, Mr. Connelley, now a member of Council, formerly the Librarian of the Northside Library, presented his request, in writing, and made verbal argument to the Chairman of the Finance Committee supporting his request, for an adjustment of three or four salaries of employees at the Northside Library, who had been considerably underpaid for many years. As a matter of fact, there were several conferences with Mr. Connelley and other members of the Committee regarding these proposed changes before they were suggested to the Committee.

Mr. Garland said:

That is all aside from the question. These figures have been changed over night.

without having been first taken up in regular meeting of the Budget Committee of Council. There has been no meeting of the Budget Committee for almost a month—from the 29th of January to February 25th. As now presented for the North Side library, this is an entirely new budget. I just want you to know that it does not pass unnoticed. It does not look good to me.

Mr. Connelley arose and said:

Mr. Chairman, I am going to speak but a moment. I was ill when that was first presented. Mr. Garland and I know, too, just what the North Side library has been getting in the past. So far as this being done over night, he is mistaken; I was ill as I say, at the time and not here for two weeks following the original presentation. This should have been done before this. They are getting a small advance, but the original Budget showed I asked for much more.

Mr. Little arose and said:

I remember very well when the Carnegie Library trustees came before us. We gave them everything they wanted. The budget was presented some time in December, before Dean Connelley came into Council, on January 6th. Mr. Muldowney says it is the Oakland library and not the East End library. We gave the Pittsburgh library all they asked for, and Mr. Connelley thought it right to adjust things on the North Side, inasmuch as the other people got all they wanted.

Mr. Garland said:

I did not say that he presented this over night. I think the original budget came from him. I say that this action was taken over night. He knows what I mean; he should know what I mean.

Mr. Anderson arose and said:

Mr. Chairman, it goes without saying—we are disappointed with this budget. Last year, nine members of Council agreed it was the sense of the Council to take care of the little fellow. My disappointment is this—that in going over this salary bill from page to page, we find a variation in increases from six per cent. to seventy-five per cent. in many cases. I am in hearty accord with Mr. Winters' thought on the subject. By raising one or two salaries in the Controller's office, it will cause dissatisfaction. This same idea applies in every department. I do not think it is a fair way for the men who have control of the wage question to increase wages in some cases seventy-five per cent.

and then get down to a little over six per cent.

Mr. English said:

Mr. Chairman, I wish he would point out one place where an increase of seventy-five per cent. was given?

Mr. Anderson said:

Mr. Chairman, it is pretty near sixty-five per cent. in the case of the Chief of the Fire Department and Superintendent of Police. I will call it sixty-five per cent., but, Mr. Chairman, it does not seem fair. What appeals to me mostly is the little fellow. Two years ago, all my life in fact, it has been my desire to take care of the little fellow, who must keep not only himself but a family. In cases of men and women who are working for the wage up to two thousand forty dollars per year, they were given a raise of one hundred twenty dollars, while in other instances increases were given up to one thousand dollars, which policy does not appeal to me.

I thought when we started to talk about the wage question that it was the idea to take care of the little fellow, as was suggested by a former member of Council when we sat down on the budget and that increase would be given all along the line. To increase them in stipulated amounts of one hundred twenty dollars per year means nothing to most of them. The wages of the firemen and policemen have been increased over twenty-five per cent. If the people of Pittsburgh saw fit to increase the wages of these men, then I think we have a right as the City Council to do as we please with regard to raising the other classes of employes, who have given all their life for the City. I do not think that the increase is fair to them—a flat increase of one hundred twenty dollars. I do not know of one employer, any corporation, any board of directors of a corporation, which we are as members of Council, the executive board, which employs such a policy on the salary question, although I am going to vote for this bill.

As stated yesterday, I am not going to get into a discussion concerning the libraries. I think Mr. Connelley knows more about libraries, but Mr. Connelley had his day notwithstanding his sickness. At the meeting, the chairman said Mr. Connelley wanted this. I wanted something too, but was told that I should have brought it up before. I did not have an opportunity, I could not sit down and talk about it. I am not going to get into any argument about this.

I want to impress upon the members of

this Council that it was the thought of the members to take care of the other employees in addition to the firemen and policemen. Upon agreement of nine members of this Council and through the action of the Legislature, activities of special committees and boards before the Legislature and the vote of the people, the increase was given to the firemen and policemen. The other employees, however, were not taken care of in comparison to the increase given the firemen and policemen. Nothing very much was said about it until the Primary Election; some of the candidates spoke of it. They led the employes to believe the increase be along the line of at least ten per cent. I suggested in Committee to give an increase of fifty cents a day. I was very much concerned then and am now. As far as the bill is concerned, I am going on record as voting for the bill, but against the policy used in determining the increases. Sometimes we must do things to help everyone concerned, and I feel there are some very deserving cases. I do not know who picked them out here and there, nevertheless, my only disappointment is that the people who work for the City, who I feel are in need, did not get the increase that I think they are entitled to.

Mr. English said:

I regret very much that the attitude of some members of Council, coupled with their statements, compel me to make the following remarks. I am sorry that it is necessary to say what I think should be said, but I believe the statement will be justified when you hear it. Some of you know the story of Mrs. Malaprop. Among other things, she said, "Comparisons are 'odorous'"; she meant to say "Comparisons are 'odious'."

It is a matter of record in the City of Pittsburgh that the Council was in harmony with the Mayor up until the Summer of 1929. There had not been a single argument or dispute between the Mayor and the Legislative Branch of the government. In the Summer of 1929, political opposition to the Mayor appeared in Council. It was repeatedly stated in meetings and printed in the newspapers that six members of Council were against Mayor Kline in his campaign for re-election. In that Primary election, Mr. Winters, a member of Council, was nominated for the office of Controller and later elected, in November. After Mr. Winters' election, in November, with Mayor Kline's re-election and also several members of Council election, the Budget came into the

old Council of 1929—along about November 25th. Instead of the previous Finance Committee attending to its business of making the tax levy and appropriation bill, we find a political combination which attempted to force Mr. Winters out of Council and into the Controller's office prior to January 6, 1930. The Controller of the City, apparently acting with this political combination in Council, resigned from his office and discharged the Deputy Controller, so that this important office of Controller of the City was without a Head and could not function. This was done at a time when the City had over \$400,000.00 worth of Interest Coupons to pay and no one in authority to authorize payment.

Fortunately, for the people of Pittsburgh, the political combination, of which the former Chairman of the Finance Committee was one of the leading spokesmen in his articles in the newspapers boasting of their six votes against the Mayor, did not succeed in their efforts. Mr. Winters did resign from Council, and Mr. Kambach, a worthy representative, was elected to fill the vacancy, on December 7, 1929. Thus, this political plot, conceived in sin and born in iniquity, selfish in the last detail, never reached maturity!

No one, whether in this Council or out of it, can dispute the fact that the Budget came from the Mayor to Council the latter part of November—about November 25th, and when their plot was defeated on December 7th, by the election of Mr. Kambach, they still had time to make an Appropriation Ordinance, Salary Bill and Tax Levy. They did pass a tax levy bill of only one mill increase and then boasted that sufficient revenue could not be provided to meet the service needs of the city. By their own admission and statements, the vote still was six to three against Mayor Kline. They had the power to make a Tax Levy and Appropriation Bill and Salary Bill and pass it over the Mayor's veto if they cared to do so. After all their fussing, the net result was that Mr. Winters resigned from Council and Mr. Kambach was elected to Council, but the combination still had six votes, as they had boasted.

Why did not those six men go to work and make a Budget before the new members of Council had qualified on January 6, 1930? Is it that they were too lazy; is it that they did not care to take their coats off and go to work; is it that they did not know how to make a Budget? I cannot answer these questions, because they

should be answered by those who did not do their Councilmanic work because they were too busy with their political skullduggery. I have heard that one member of Council, talking to outside interests, stated it was impossible for the new Council of 1930 to make Appropriation and Salary Bills without the help of a certain other member of Council. The answer to that silly statement is the Appropriation and Salary Bills which are under discussion now.

For my part, I do not need to apologize for this Appropriation Bill—those who had the control during the months of November and December, did not have courage enough to make the Tax increase more than one mill, as I had suggested and for which I was duly criticised in the newspapers. The only regret that I have—and it is not an apology—is that the referendum for the policemen and firemen's salary adjustment which was approved by the people at the polls in September, could not be carried out on the first of January, due to the political tactics and skullduggery which had developed in the Council. My regret is that the work in this Budget required the months of January and February and that the money available for increases in salaries and adjustments could not be gotten any sooner because the tax rate would not bring in enough revenue to do so. However, we have done the best we could under trying circumstances, and the employees will receive five-sixths of the proposed increases.

We found the Mayor and the Directors under him, in sympathy with us in making adjustments in order to get efficient work from the employes of the City. I would like to have in this record of this Council that the Mayor and all of his Department Heads cooperated to the greatest extent with the Council in its efforts to make a fair budget and to adjust salaries and wages as they should be adjusted.

The preparation of this budget was the most difficult of any since I have been in Council. I am now serving in my seventeenth consecutive year. I think I am right in stating that for the first time in my experience, this is the only time that an Appropriation and a Salary Bill were read line for line in the Committee, before their adoption. Every member of Council, including those who are objecting today, was given every opportunity to say anything and everything they cared to say, as we turned the book, page by page, line after line, and stopped and answered their ques-

tions during the three-hour session last Tuesday.

The opposition attempted to speak for the policemen and firemen, stating that they were not satisfied with the delay in making the Salary Bill. The Chairman of the Finance Committee asked the two representatives of the Policemen's and Firemen's Organizations whether or not they were satisfied with the results, and they said that they were.

It is true that the sum of \$150,000.00 was set up in the Budget last year for salary adjustments. Everyone knew that this sum could not go very far over a twelve month period. It was stated we would take the matter up some time during the year 1929. In July of 1929, the Mayor sent a letter to Council suggesting that Council should take some action in the matter of this \$150,000.00 appropriation. A few weeks after the Mayor's letter was received by Council, I introduced an ordinance providing for an adjustment of salaries by this appropriation of \$150,000.00. It was about this time that the political combination appeared in Council and as there were six votes in one group, that group had the power to pass the ordinance introduced by me, or one similar at their will and pleasure. I do not know whether in the political combination promises were made to certain city employees in an effort to win them to the factional side of the majority in Council, or whether promises were made as rewards for political services, but I do know, and it is a matter of record, that the six votes in control of Council last Summer did not do anything at all regarding the distribution of the \$150,000.00 which was set up for payroll adjustment.

However, in this present appropriation and salary bill, this new Council, which is not under the control of any individual or political combination, has endeavored to provide fair and reasonable salary adjustment in keeping with the money available. For my part, I have no apology for these bills. Notwithstanding the bitterness of the political campaign, particularly some of the statements of the members of Council, it is a matter of record that we did not have any personal altercations or quarrels in the Budget hearings over which I had the honor to preside. I am proud and pleased to be able to say that it was not necessary for the Chairman to rap the gavel and call a single member of the Committee to order at any time during the Sessions. This is something so new and novel in my entire sixteen years in Council, under other

Chairmen, that I hope you will pardon this personal reference. I want to take this opportunity to say that as long as you continue me as Chairman of the Finance Committee, or any other committee, it is my intention to permit any member, and every member, to have his say at all times, unless he is so very, very far out of order that the members themselves will be compelled to ask me, as Chairman, to call the unruly member to order. I have always believed in the policy of the members of this Body speaking their thoughts without any interference and unless the members themselves order a change, that will be my policy in the future.

Mr. Garland said:

Mr. Chairman, it is not necessary for me to answer the last speaker—any member who would go so far as to talk about something entirely out of the question. I am not going to vote for either of these ordinances; I am not going to vote for or against them. I am not going to vote on these bills for this reason—ever since the Council of nine was inaugurated, it has been the policy and understanding that salary and wage increases were to be made in budget committee. There seems to have been a gross departure made this year. These figures were reached in closed sessions among certain members of Council and the Mayor. It is against the law, as every member of Council knows. The questions involved in this budget were discussed in secret sessions, or whatever you may call them. This is an entirely new budget from the one originally presented, because in certain instances items are omitted and other items added. About a hundred ninety-seven or ninety-eight new positions are added in this new budget. Is there a letter of recommendation from the Mayor or Director of the Department to place these two hundred new positions on the payroll? I do not think so. I will take it there is not. It is an unusual procedure. There has always been an understanding that in matters of that kind, any additions to the budget, would be discussed in budget committee, particularly when adding one hundred ninety-seven or ninety-eight new positions, and at a time when unemployment is so intense, when there will soon be an army of unemployed at the doors of this Council Chamber.

The reference about the control of this body being six to three against the Mayor is entirely out of order. The control today is seven to two in favor of the Mayor, but we are not going to go into details.

We are engaged on important business. We tried to meet several times on the budget since the last meeting, but could not get a quorum. I will leave it to some of the members of Council if it is not a fact that we could not get a quorum. It is true, there was one gentleman sick, but he was not indispensable. I am not asking some of the members here to commit themselves. I know these men and have a lot of regard for them. It is now seven to two; it had to take seven to two to have done this. All of the work on this budget should have been done at this table. In many cases there would have been nine votes for many of these raises. Had they been brought in in the regular way, I might have gone along. However, that has nothing to do with the case. We are talking now about this present budget. I do not intend to vote for it. You have no written approval from the Mayor of these changes.

I am not voting yes or no on the budget as I am not familiar with it. This new budget was submitted to the budget committee on the afternoon of February 25th, with notice that it must be passed on Thursday or Friday of this week, otherwise the activities of the City would not function. I agree as to the urgency. It must be in operation March 1st. Let me state, however, that until February 25th, the budget committee did not meet in regular session since January 29th—almost a month. This new budget now before us was prepared, not in regular budget committee meetings as the law provides, but in special sessions in the Mayor's office and elsewhere.

Outside of the advances in compensation to Police and Firemen, and the advances of the lower paid employees, which have my full approval, there have been many other special salary advances, varying from \$300 to \$1,000 per year. These may or may not be meritorious. I am in no position to judge as I have no knowledge as to the discussion with regard to these favored individuals. Some particular employees may have been preferred above many others equally meritorious—I have no knowledge as to the extent to which discrimination or unfair distinction has been applied. There have also been 200 new positions created in the new budget as I learned Tuesday afternoon for the first time. They may be justified, I don't know. We have before us no information giving the reasons. No written request from the Mayor stating his very decided change of view as compared with his letter of transmissal which accompanied the first budget presented. Since the inau-

guration of the new Council of nine, it has always required a special motion in open committee in each individual case when advances in compensation were made, and there has always been full discussion before adding to the payroll new positions. And nine councilmen have always heretofore been privileged to exercise their legal right to join in the discussion, and thus reach a conclusion.

I am fully aware of the fact, Mr. Chairman, that the new budget as presented February 25th will pass, but, under the circumstances, I desire to be recorded as not voting.

The Chair stated:

I do not want to have to call to the attention of either one of you the rules of this Council.

Mr. English stated:

Mr. Chairman, the very lengthy statement of the last speaker, particularly his statement regarding not voting, certainly is entitled to further reply from me. When I first came into this Council, in 1914, the gentleman was at the head of a powerful combination with the controlling votes in this Council. We did not get the courtesy which he has received under me as Chairman. I did not duck or dodge when it came to voting againstt he appropriation bill which he jammed through the Council in 1914. I will quote briefly from the Record of Council, of February 4, 1914—sixteen years ago: "When the name of Mr. English was called, he arose and presented the following statement and asked that it be inserted in the record: 'I am compelled to vote "NO" on Bill No. 228, providing for annual appropriations for objections that I entertain against certain items in the Bill, which are as follows:'" Then, Mr. Chairman, I proceeded to give two or three pages of reasons, which are printed in this record which I hold in my hand, giving my specific reasons for opposing the passage of that Bill. I did not duck and dodge and say "Not voting" and any member of Council who has been in this Body for years who makes a statement that he does not know enough about the City's business and that he was not capable of following this Budget, as it was read line for line for over three hours last Tuesday, in my opinion, convicts himself to such an extent that further comment from me is unnecessary.

As to the new positions created—they were all explained as fast as the items were read. We have taken into the City the

large districts of Carrick, Knoxville, Hays Borough, Ross Township and Overbrook Borough, the first three being, in area and population, of such size as to be called the 29th, 30th and 31st Wards. Is it fair to take communities into the City and refuse to provide for their wants and needs? I submit that any failure of Council to recognize the requirements of these communities is unworthy of any Body which is supposed to represent the people of Pittsburgh. It is true new positions were created, because they were needed, but the gentlemen, in speaking about new positions, either deliberately or ignorantly refrained, or refused, from also stating that other positions were abolished and cut out. He also declined to state that for the first time since his membership in the Council, a real effort has been made to reorganize the Department of Public Works, with particular reference to the engineering costs, and also the Bureau of Highways and Sewers, in an attempt to modernize it with machinery. We do not know what the result of these efforts will be, but I challenge anyone, in or out of this Council, to dispute the fact that an honest and conscientious effort has been started with the hope that long standing abuses against the public treasury will be abolished if the plans and policies we have laid down are carried out. No doubt, it will be a difficult task to obtain perfect cooperation, in view of the fact that some of these abuses have been the growth of many years. The one matter of engineers paid from tax and bond funds is a noteworthy step in efficient business management. For many years in the past, when bond issues were provided to finance public improvements, many increases were made in the engineering force. After the improvements were made and the work had been completed, the group of new employees were generally shifted from bond account to tax account. No Council, in my experience, has ever attempted to break up this practice which we all know is wrong. This Council has made that attempt and as far as we know now, the Mayor and the Director of the Department of Public Works intend to carry out Council's desire in this matter. We regret, as any man should regret, that it might be necessary at any time to deprive any person of employment, and if there was work and bond money available, I assure you it would not be necessary to take such action, but as we do not have bond funds available and as we are unable to proceed with improvements of this kind at this time, it is not

fair to the tax payers of the City to continue with the employment of such persons for whom there is no work and no money with which to pay them.

As to any member of Council not being familiar with this Budget, I am sorry that he makes such an admission.

Regarding the control of Council last Summer about which I refer to at length, the gentleman dismisses that in a few words by saying that such reference is entirely out of order. On the contrary, he proceeds to say that the control today is seven to two in favor of the Mayor. I deny that charge and wish to place in the record, that there is no control whatsoever in this Council—every member had every opportunity to make motions during the Budget Sessions, and every motion made and seconded, was put to the Body by the Chairman. If any member failed to make a motion or laid down on the job himself and refused to do any work on this budget, it is unfair to now charge such neglect to the rest of us, in an endeavor to answer my charge that they had plenty of time, with their six votes, to make a Budget between November 25, 1929 and January 6, 1930. It is not my fault that they were unable to obtain a quorum. This is another admission that they were paying more attention to politics—with the resignation of the Controller and the fuss over the vacancy created by Mr. Winters' election as Controller—than they were to the important business of preparing an appropriation and a salary bill. It is not my fault if any other member of Council is not familiar with his Budget work, and I refuse to shoulder the responsibility of others.

As to special meetings with the Mayor or outside of the law, or in dark places, I deny any such charge and the member making it knows that it is not true. However, I know that there were many meetings in certain offices outside of the City-County Building, by the political combination when it was plotting and scheming to elect a member of Council to the vacancy created by Mr. Winters' election to the office of Controller.

As to written requests from the Mayor regarding the Budget or any other matter, such talk is "piffle." When the opposition was in control, they did not pay much attention to any communications from the Mayor, so that it is rather foolish to attempt to place the burden of this appropriation bill and salary bill entirely on the Mayor instead of upon the members of

Council, where the responsibility finally rests.

Mr. English also presented

No. 343.

City of Pittsburgh, Pa.,

February 27, 1930.

To the Council,
City of Pittsburgh.

Gentlemen:

The appropriation and salary ordinances now before your honorable body are in accordance with the action of the Finance Committee.

The tax levy and miscellaneous revenues as estimated by the Mayor plus reversions from various bond funds to sinking funds which are to be authenticated by resolution of your honorable body will be sufficient to meet the total of the appropriation bill as written.

Very truly yours,
JOHN SCHILPP, JR.,
Deputy Controller.

Which was read, received and filed.

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The Chair presented

No. 349.

February 26, 1930.

Chairman and Members,
Committee on Finance,
City Council.

Gentlemen:

The second meeting of the Committee on Measures for Relief of Traffic Congestion of the National Conference on Street and Highway Safety, often called the "Hoover" Traffic Conference, will be held in Washington, D. C., on March 4th, preceded by meetings of the Committee's three subcommittees on March 3rd.

Mr. Burton W. Marsh, Traffic Engineer of the Bureau of Traffic Planning, is a member of said Committee, having been appointed thereto by Secretary Lamont.

I believe it will be to the advantage of the City to have Mr. Marsh attend these meetings and recommend that authorization be granted to send him to Washington, D. C., on March 3rd and 4th, 1930.

Awaiting your approval, I am

Yours very truly,

JAS. M. CLARK,
Director.

Approved:

CHAS. H. KLINE,
Mayor.

Which was read, received and filed.

Mr. English moved

That the request contained in the communication be granted.

Which motion prevailed.

The Chair thanked the members of Council for their work on the budget and commended the character of the men appointed to represent the police and fire and congratulated the members of the police and fire bureaus in selecting such good representatives.

And on motion of Mr. Kambach

Council adjourned.

Department of Public Works.

March 8th, 1930.

President and Members of Council,
City of Pittsburgh.

Gentlemen:

In the past few years it has come to the attention of the Department of Public Works, on several occasions, that others outside this Department present ordinances to Council affecting openings, widenings or vacations of thoroughfares within the City limits, with the result that said ordinances are passed by Council and approved by the Mayor before this Department has any knowledge of same, and we have no file records whatsoever showing said changes.

We most urgently request that Council take some action, possibly in the form of a resolution, that will require any ordinance for street openings, widenings, vacations or establishment of grades, prepared outside the Department to be submitted to the Department of Public Works for its approval and knowledge, previous to same being received by Council, as we are most certain that the adoption of this rule will result in the concentration and centralization of functions actually belonging to the Department of Public Works, and further, will result in the Department being able to furnish to property owners affected thereby information requested by them, who seek such data in this department.

We most urgently request your co-operation in this most important matter.

Yours truly,

EDWARD G. LANG,

Director.

Which was read and referred to the Committee on Public Works.

Also

No. 447. Communication inviting Council to attend the demonstration to be given by Mr. Sergius P. Grace, Asst. V. P., of the Bell Telephone Co., on the marvels of sound transmission at Syria Mosque, March 17, 1930, at 8:15 P. M.

Which was read.

Mr. Garland moved

That the invitation be received and filed and accepted, and such members as desire to attend to procure their reserved seat tickets from the City Clerk.

Which motion prevailed.

REPORTS OF COMMITTEES.

Mr. Connelley (for Mr. English) presented

No. 448. Report of the Committee on Finance for March 4, 1930, transmitting sundry ordinances and resolutions to council. Which was read, received and filed.

Also

Resolution for \$400 in favor of Mrs. Julia Collins, 2439 W. Carson St.

President and Members of Council,
City of Pittsburgh.

Gentlemen:

Referring to Bill No. 308, Resolution authorizing and directing the Mayor and the City Controller to countersign a warrant in favor of Mrs. Julia Collins, for \$400.00, in full settlement of any and all claims for damages which she might have against the City of Pittsburgh, arising out of the flooding of her house located at 2439 W. MOTIONS AND RESOLUTIONS.

The Chair presented

No. 562.

City of Pittsburgh, Penna.
Department of Public Welfare.

March 13, 1930.

Honorable Members of City Council.
Pittsburgh, Pa.

My dear Friends:

Dr. James S. Hammers, Sup't of the Pittsburgh City Home and Hospitals at Mayview, requests permission to attend the First International Congress on Mental Hygiene to be held at Washington, D. C. May 5-10, 1930.

This Congress, which is the first to be held, I feel is of paramount importance and I believe that it would be valuable and helpful to have the City of Pittsburgh represented by such an able psychiatrist as our Dr. Hammers. Our institution at Mayview will profit I am sure by suggestions which Dr. Hammers will get at the Congress.

The attached letter gives some idea of the importance of the Congress in setting forth some of the able and world prominent psychiatrists who are to present papers, etc.

I will appreciate your favorable consideration of this matter.

Thanking you for your attention, I am,

Sincerely,

Department of Public Welfare,
By Isabel B. Darragh.

Which was read, received and filed.

Mr. Alderdice moved

That the request be approved.
Which motion prevailed.

DEPARTMENT OF PUBLIC WORKS.

March 28, 1930.

President and Members of Council.

Gentlemen:

During the year 1929, a Pitometer Survey was made of all the water mains of the distribution system, for the purpose of ascertaining the efficiency of same, so that we might know the prevailing condition of each water main, in the different sections of the City and be in a position to carry on the future design of the water works system.

This survey revealed an unusually large night flow in the feeder mains of the Herron Hill and South Side pressure systems, indicating a large leakage. The Pitometer Company of the City of New York, made a waste water and leakage survey in the Squirrel Hill district and found a leakage of 18% of the daily flow, and since that time all leaks in this pressure system have been repaired. A report of this survey is summarized in the following tabulation.

Dist. No.	Total Consumption	Minimum Night Rate	Ratio	Miles of Main	Under Registration of

* The hospital was paying a flat rate for 4,800,000 gallons a year. This should have been 9,000,000 gallons a year. The loss is computed at seven cents a thousand gallons.

** Loss computed at seven cents a thousand gallons.

The results obtained so far in this waste water survey are proving that the waste water campaign that has been initiated by the Department is resulting in a real saving to the City, and we are now preparing legislation to submit to you requesting further appropriations to complete the South Side investigation and to repair all leaking water mains and services.

Yours truly,

EDWARD G. LANG,
Director.

DEPARTMENT OF PUBLIC WORKS.

March 25, 1930.

President and Members of Council,
City of Pittsburgh.

Gentlemen:

By letter dated February 20, 1930, we submitted a statement to Council showing the proposed allocation of State Aid Funds for the improvement of certain highways within the City limits.

One of these proposed improvements is Lebanon street, extending from Mifflin road southwardly about 2,000 feet to the City Line, at which point the State is construct-

ing a road leading southwardly from the City. It is the State's proposition that a 40-foot paved roadway be constructed, the City to obtain the necessary property for the widening of the old travelled road which has no fixed width, and pay for the curbing and 10 ft. width of pavement, the State to pay for 30 ft. width of pavement.

We have made a complete survey of the road in question and have laid out a 56-ft. street, 40-ft. for roadway and 8-ft. on each side for sidewalk spaces.

In order to furnish Council with an accurate estimate of the City's share of this proposed improvement, it will first be necessary to have an appraisal of property damages, and we accordingly submitted this proposition to Your Honorable Body with a request that the Law Department be authorized to make such an appraisal.

As this is an entirely new thoroughfare, there is no doubt in our opinion but that the City's share of the cost can be financed from Bond Fund No. 293.

Yours very truly,
EDWARD G. LANG,
Director.

No. 623.

City of Pittsburgh, Office of the Mayor.

March 31st, 1930.

To the President and Members of City

Council, Pittsburgh, Penna.

Gentlemen:

You have before you for your most careful consideration as to whether or not Overbrook should be annexed to the adjacent territory or become the 32nd Ward of the City of Pittsburgh.

I have made a thorough investigation of this question and although it may comprise but three districts at present yet the district is growing so rapidly that before the end of the year it will have a population sufficient for three additional districts. In addition to this there have been requests from the people of that particular locality to function as a Ward. In view of these conditions I am of the opinion that Overbrook should be the Thirty-second Ward of the City of Pittsburgh.

Sincerely yours,

CHARLES H. KLINE,

Mayor.

Which was read, received and filed.

Mr. English moved

To amend the resolution by striking out the words "part of the 29th Ward" and by inserting in lieu thereof the words "the 32nd Ward."

No. 625.

City of Pittsburgh, Penna.

Department of Law,

Chas. A. Waldschmidt, City Solicitor.

March 31, 1930.

Committee on Public Works of Council.

Gentlemen:

In reference to Bill No. 540, An Ordinance authorizing the Mayor and the Director of the Department of Public Works to advertise for proposals and to award a contract or contracts for the construction of a Trunk Sanitary Sewer in the Beck's Run Drainage Basin on the roadway, north and south sidewalks of Becks Run road, etc., at a cost of \$86,000.00, which was referred to the Department of Law as to whether the City is to construct the sewer and assume the entire cost of the contract and the Borough and Township which joined in the Agreement are to provide their share of the cost, I advise you as follows:

The City of Pittsburgh entered into an Agreement under date of March 22, 1930, with the Borough of Mt. Oliver and Baldwin Township as to the amount to be paid by each municipality to have the above work done. The pro rata share of each is as follows:

City of Pittsburgh.....	63.7%
Mt. Oliver Borough.....	25.5%
Baldwin Township	10.8%

Mr. Armstrong, Commissioner of Baldwin Township, has informed me that Baldwin Township has the money ready to carry out its part of the work.

Mr. Walter J. Wagner, who is attorney for the Borough of Mt. Oliver, informed me that Mt. Oliver is going to submit its proposition to the electors on May 20, 1930, for an electoral issue of bonds, and if not passed by the people, it will be paid out of general taxation.

The Agreement provides that the parties are to reimburse the City within a period of ten days from the date the copy of the final estimate is received by the municipality interested, and that the City of Pittsburgh is to award the contract and do the work under its general supervision, with the right of inspection and supervision in the Township and Borough.

This is quite a large contract and should be started as soon as possible so as to be

completed this year.

Respectfully yours,
CHAS. A. WALDSCHMIDT,
City Solicitor.

Department of Public Works.

April 7, 1930.

President and Members of Council,

City of Pittsburgh.

Gentlemen:

This is to advise you that we have been negotiating for the purchase of the property at St. Ives, Kirkpatrick and Sedgwick streets on the North Side, for use of the Bureau of Water, and the best price that

we can purchase the property at is \$14,500.00. The owners of the property had an original price of \$20,000.00, which, after some negotiations, was reduced to \$18,000.00, and now I feel satisfied that we can purchase this property for \$14,500.00 if we make a firm price, which, however, must be approved by Orphans Court. We should like your authority to make this bid to the representatives of the McCann Estate, and beg to advise you that this is at a lower price than has similar property been sold at in the immediate neighborhood.

By reason of the fact that this must necessarily go through Orphans Court, which will consume considerable time, and we are obliged to move from our present location, may I urge that early action be taken on this, and if in your judgment, you conclude that \$14,500.00 is a fair price for the property, I should be glad to have you give me authority to make that proposition to the owners.

Awaiting your reply, I am,

Yours very truly,

EDWARD G. LANG,

Director.

President and Members of Council,

City of Pittsburgh.

Gentlemen:

Ordinance No. 679, approved September 28, 1928, authorizes the reimprovement of Streets in the North Side Flood District, between Federal street and Manchester ave-

nue, and appropriates and sets aside from Bond Fund 296, Street Improvement Bonds 1928, the sum of \$600,000.00 for paying the cost of the physical work.

During the year 1929, three (3) contracts were awarded and completed, which work included the completion of all the streets between Scotland street and Manchester avenue, and also the completion of General Robinson street West, from Scotland street to Dasher street.

It appears most advisable and urgent by the Department of Public Works, that General Robinson street West including Alcor street should be completed without any delay, as we are informed that buildings costing several million dollars will be started immediately upon the completion of these two (2) streets.

The total cost of work completed to date is \$306,692.51, leaving a balance in the \$600,000.00 set-up amounting to \$293,307.49. Damages for this improvement have been paid out of Councilmanic Credit, and the damages on the southerly side of General Robinson street and for the widening of Alcor street have been charged to Councilmanic Credit. The only damages not taken care of are those on the northerly side of Robinson street, between Dasher and Federal streets, which the Department of Law, by their experts, have estimated will amount to \$28,500.00.

Account the financial condition of Councilmanic Credit at the present time, it appears impossible to complete all the street improvement work in this Flood District, but in order to place Robinson street in a condition which will permit the starting of several million dollars worth of buildings, the Department proposes to present to Council at its next meeting, April 14th, an ordinance setting aside the sum of \$28,500.00 from the fund appropriated for the cost of the physical work, to pay the estimated damages. The physical work on Robinson and Alcor streets is estimated to cost \$70,000.00 which would leave an unencumbered balance of \$194,807.49 to cover the cost of the physical improvement of the remainder of the streets in this District, when Councilmanic Credit will permit assuming damages incurred thereby.

There is a possibility that this sum of \$194,807.49 may not be sufficient to pay the entire cost of the physical work to be completed, but said cost is estimated not to exceed this amount to any great extent and the additional funds required, if any, could be appropriated from Councilmanic Credit.

Unless advised to the contrary, the Department will present the above mentioned ordinance for the payment of damages to the extent of \$28,500.00.

In Council, this day, bill read and laid over until the last order of business.

And the bill was read a second time.

The Chair presented

No. 700.

April 7, 1930.

To the President and Members of
City Council.

Pittsburgh, Pennsylvania.

Gentlemen:

Referring to Bill No. 533, Series 1930, File No. 221, entitled "An Ordinance Creating the Division of Fire Prevention in the Bureau of Fire of the Department of Public Safety of the City of Pittsburgh", the Pittsburgh Real Estate Board recognizes the fact that there is much merit in the idea of measures looking to the prevention of fires and the lowering of fire hazards.

It objects, however, to the bill now before Council for the following reasons:

First—It establishes a Division in the Bureau of Fire, with a consequent increase in the cost of operating this Bureau. The Board is of the opinion that adequate provision for fire prevention should be made within the Bureau, without additional cost.

Second—With respect to new buildings, the proposed ordinance takes from the Bureau of Building Inspection and places in the new Division a function properly be-

longing in the Bureau of Building Inspection, because the problem of fire hazard in a new building is so interwoven with problems of construction that they should not be separated.

Third—The provisions of Section 2, paragraph "C" and "D", would give to the Division of Fire Prevention the right to compel the installation of such appliances as might be designated by the Division, which installation might be so economically unsound as to be confiscatory.

Fourth—The provision of Section 3, whereby conditions not satisfactory to the Division shall be removed or remedied by the City and liens filed therefor against the property are too severe. The establishment of such right would make it more difficult to borrow money on mortgages, in that the City's lien would be prior to such mortgage and add an additional hazard to the mortgagee.

Respectfully,

J. W. CREE, JR.,

President.

Also

No. 701.

April 5, 1930.

Mr. W. Y. English, City Councilman,
City of Pittsburgh,
City-County Building,
Pittsburgh, Penna.

Dear Mr. English:

With reference to Bill No. 533, File No. 221 which is the Ordinance creating the Division of Fire Prevention, the Builders Owners and Managers Association wish to file a formal protest against the passage of this Ordinance for the following reasons:

First, it is our opinion the Ordinance is loosely drawn and confers on inspectors arbitrary power to compel building owners to install fire fighting equipment, sprinklers, etc., and we do not believe it is the intention of Council to set up such arbitrary jurisdiction.

Second, the Bill as drawn gives the inspectors the right to inspect fireproof office buildings and eliminate fire hazards. We submit that an inspection of the fire records in the City of Pittsburgh for the last ten years will show that fireproof office buildings are singly free from hazards of any kind and have a very clear fire record. We are in thorough accord with the principles and spirit of this ordinance but we feel that the hazards should be better defined and not left to the judgment of inspectors.

We also feel that fireproof office buildings should not come within the meaning of this ordinance. You will appreciate if this ordinance becomes a law it will be possible for an inspector to enter a fireproof office building and compel owner of that building to enclose stairways, elevator shafts, etc., install sprinklers where the inspector feels a hazard exists, install fire extinguishers, standpipe, etc., even tho experience has demonstrated that there is no need of such equipment.

Third, and most important argument against this bill is the fact it will further add to the operating expense of the City of Pittsburgh, and it will probably necessitate at some future date a further increase in taxes on real estate. You will recall last Fall during our discussion of taxes a statement was made that the increase was necessary because of mounting expenses. It is our opinion that this bureau will add considerable expense to an already overburdened budget and the citizens will not benefit in any way, only the Fire Insurance Companies will be the beneficiaries. The argument is raised that the creation of this ordinance should result in the reduction of fire insurance rates, but the same argument was used when the Salvage Squad was formed a few years ago. Despite the fact that according to Chief Smith's records this Salvage Squad has saved a tremendous sum in the course of a year for the Insurance Companies, let me call your attention to the fact that there has been no reduction in the insurance rate since the Salvage Squad began operation.

You may consider this letter a formal protest against inclusion in this ordinance of fireproof office buildings and we ask that Council specify that the provisions of this Ordinance should not apply to such buildings.

If you care to fix a hearing to discuss these points we will be very glad to appoint a committee to meet with you at any time.

Yours very truly,

L. J. KIEFER,

President,

Building Owners and Managers Asso.

Which was read, received and filed.

Mr. English stated

That the bill had been thoroughly discussed in committee, but as Mr. Cree and Mr. Bamford were present, he would ask that they be heard further.

The Chair stated

If there were no objections, the gentlemen would be heard at this time.

And Mr. J. W. Cree, Jr., of the Pittsburgh Real Estate Board, was heard and reiterated the objections contained in his communication.

And Mr. J. W. Bamford, of the Building Owners and Managers Association, was heard and stated the ordinance gave too much power to the inspectors and its passage would put additional expense on the City to lower the fire hazards when the insurance companies would not give the public the benefit of the reduction.

Mr. Chas. A. Waldschmidt, City Solicitor, appeared and stated

That the ordinance was simply carrying out the provisions of the Act of Assembly passed in 1913, which was never put into effect; that the provisions did not give the inspectors arbitrary powers; the property owner having the right to appeal to the Director of the Department of Public Safety, and if his decision was not satisfactory, to the Courts.

And the bill, as read a second time, was agreed to.

Mr. Kambach moved

A suspension of the rule to allow the third reading and final passage of the bill.

Which motion prevailed.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Connelley	Little
English	Muldowney
Kambach	Herron, (Pres't.)

Ayes 6. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

And on motion of Mr. Kambach, the Minutes of Monday, March 31st, 1930, were approved.

And on motion of Mr. Little

Council adjourned.

Department of Public Works.

April 10, 1930.

President and Members of Council,

City of Pittsburgh.

Gentlemen:

Referring to Bill No. 644, in re opening the Schenley Park Golf Links, beg to advise that we are exceedingly anxious to open these at the very earliest possible time in keeping with good judgment insofar as the condition of the grounds will permit. The recent wet weather has made the grounds very soggy, and if we permit playing on them too soon, the fairways and greens will be in such miserable condition, that we will be recipients of complaints during the entire summer, so that we feel a week or ten days of good weather will put the links in such shape that we can consistently open them to the public.

Yours very truly,

EDWARD G. LANG,

Director.

Which was read, received and filed.

REPORTS OF COMMITTEES.

Mr. English presented

No. 757. Report of the Committee on Finance for April 8, 1930, transmitting sundry ordinances and resolutions to council.

No. 817.

City of Pittsburgh, Pennsylvania.

Department of Law.

April 14, 1930.

Committee on Public Works of Council.

Gentlemen:

In reference to your letter of April 10, 1930, advising me that at a meeting of your Committee held Tuesday, April 8, 1930, the report of the Department of Public Works relative to the improvement of Eleventh street, between Pike street and Duquesne way, was read and the Department of Law asked to submit its approval of this proposal in writing, and further advising me that the Ordinance giving the Pennsylvania Railroad Co. permission to construct piers on Eleventh street, is pending in the Committee on Public Service and Surveys and that action on same will be taken as soon as my report is received, I advise you as follows:

The letter of Mr. E. T. Whiter, Vice President of the Pennsylvania Railroad, addressed to Mr. Edward G. Lang, Director of Department of Public Works, City of Pittsburgh, Pa., dated April 5, 1930, authorizes the City to enter upon the land to be deeded to it (City) at once, for the purpose of regrading and reimproving the said street and making such changes in the sewer pipes and conduits as may be necessary by the change in grade and relocation of said street, as provided in the Agreements of November 3, 1928 and August 8, 1929, for the purpose of assisting and enabling the Railroad and the City to commence work on the proposed street prior to the dedications being given and accepted by the City.

This is part of the program contained in the Pike Street Agreement and which the Railroad Co. and the City are bound to carry out unless by mutual consent the Agreement is changed. It seems that the Railroad Company desires to build a bridge over Eleventh street and the Ordinance submitted is for the purpose of allowing it to place abutments and piers within the lines of the proposed street. This is a means simply to proceed with the work and not hold the same up until after the contract-

ing season of 1930 is practically passed. Since the Railroad Co. has issued its letter of authority to make such improvements as are proposed, I cannot see any harm in passing the Ordinance allowing the Railroad Co. to place its abutments on the street upon the conditions contained in the Ordinance.

The main proposition is that this will estop the Pennsylvania Railroad from bringing any action against the City in the strating of the proposed improvement as contained in the Pike Street Agreement and is just a means of getting the work started prior to the dedications actually being received. This, of course, is taken on the faith of the officials that the dedications will be received and its going to the expense of putting its abutments within the lines of the proposed street under the same provisions.

Respectfully yours,

CHAS. A. WALDSCHMIDT,

City Solicitor.

Pennsylvania Railroad.

Pittsburgh, Pa., April 5, 1930.

Mr. Edward G. Lang,
Director of Dept. of Public Works,
City of Pittsburgh, Pa.

Dear Sir:

In confirmation of telephone conversation of Chief Engineer Wiggins with City Solicitor Waldschmidt, I would advise that deeds, drafts, of which have been approved by the Department of Public Works of the City of Pittsburgh, for the land required to widen and relocate 11th Street, as per contracts of November 3, 1928, and August 8, 1929, will be executed and delivered to the City as soon as a meeting of the Board of Directors of the Cleveland and Pittsburgh Railroad Company is held and their execution properly authorized.

We understand we may proceed with the construction of the abutments and piers for the bridge over 11th Street, plans for which have been approved by the Director of the Department of Public Works and the Art Commission of the City of Pittsburgh, with the understanding that the City will pass an ordinance authorizing the occupation of the street with the piers and projecting footings of abutments and retaining walls within the lines of said street upon the usual terms and conditions that the Railroad Company will maintain the said bridge, take

care of the drainage thereof and will provide and bear the cost of proper lighting of the street as occupied by said bridge when so ordered by the Director of the Department of Public Works of the City of Pittsburgh.

The Railroad Company, in accordance with the terms of its contract to deed to the City property required for the widened and relocated street, hereby grants to the City the permission and right to enter upon the land to be deeded to it, at once, for the purpose of regrading and reimproving said street and making such changes in the sewer pipes and conduits as may be made necessary by the change in grade and relocation of said street, as provided in the agreements above referred to, this being for the purpose of assisting and enabling the Railroad and the City to commence work on the proposed street prior to the dedications being given and accepted by the City.

Yours truly,

E. T. WHITER.

City of Pittsburgh, Pennsylvania.

Department of Public Works.

Subject: 11th St. Improvement Project,

P. R. R. Overhead Bridge.

Committee on Public Works,
City of Pittsburgh.

Gentlemen:

At meeting of the Committee on Public Works held Tuesday, April 1, 1930, the following motion was adopted by your committee with regard to the question of opening and widening 11th Street between Pike street and the Allegheny River and the construction of the piers of the overhead structure of the railroad company.

"THAT the plans as approved by the Department of Public Works for the building of this overhead bridge in accordance with the Pike Street Agreement be approved, and the Council will pass such ordinances giving the Railroad Company the right to build the piers as specified in the plans, and the Railroad Company to furnish a letter stating that they will dedicate this ground to the city and that the city can go in and lay its water and sewer lines and that it will be relieved of any damages by reason of doing this work."

In conformity with your instructions the Pennsylvania Railroad Company has submitted a letter under date of April 5th complying with the provisions of the above

motion, copy of which letter is hereto attached. This letter has been approved by the City Solicitor.

The Department is today submitting to Council an ordinance granting the right to the Pennsylvania Railroad Company to construct columns and necessary footings and foundations on 11th Street as widened, this ordinance being also in compliance with the terms of the above motion.

Yours very truly,

EDWARD G. LANG,
Director.

Pittsburgh, Pa.,

April 25, 1930.

Council of the City of Pittsburgh.

Gentlemen:

As to Bill No. 801, Resolution for a warrant in favor of the Western Pennsylvania Safety Council for \$4,000.00, for the City's contribution, and to charge same to Code Account No. 42, I advise you as follows:

This appropriation is not for a particular municipal function, in that it is not for the benefit of the City as a municipality or as a political agency, and, therefore, I am of the opinion that this is not a proper expenditure of public monies and is beyond the power of Council insofar as its appropriating monies to the Safety Council for its work, no matter how meritorious it may otherwise be.

Respectfully yours,

CHAS. A. WALDSCHMIDT.

City Solicitor.

Which was read.

Department of Public Safety.

May 5, 1930.

President and Members of City Council,
Pittsburgh, Pennsylvania.

Gentlemen:

A hazardous situation has been created by the practice of motorists coming down Federal street turning left just before reaching North avenue and dashing through Citron way to Boyle street, in order to "beat" the lights at North avenue and Federal street. They traverse this block, which is a paved alley 12 feet wide from building to building, at a high rate of speed, extremely hazardous to pedestrians, especially school children. Prominent citizens in that vicinity have requested that Citron way be made one-way westbound from Boyle street to Federal street, thus putting a stop to the dangerous conditions described.

I have therefore decided to institute a 60-day trial of the following regulation, effective May 7, 1930.

Citron way, westbound only, from Boyle street to Federal street.

Yours very truly,

JAMES M. CLARK,

Director.

Approved:

CHARLES H. KLINE,

Mayor.

Which was read, received and filed.

President and Members of City Council,
Pittsburgh, Pennsylvania.
Gentlemen:

I wish to express to you, individually and collectively, my sincere appreciation of

your exceedingly kindly attitude toward me and the Bureau which I have represented.

You have given us increasing appropriations, despite your handicaps in budget making. You have provided bond funds for work, and you have very generally cooperated in measures which we have sent to you for traffic improvements.

I thank you for your courteous treatment of me personally. While there have been a few times when I have not been "comfortable" in previous councils, I have, during my entire connection with the City, been accorded very generally a courteous

The Chair presented

No. 929.

City of Pittsburgh, Penna.
Office of the Mayor.

May 5, 1930.

To the President and Members of Council,
City of Pittsburgh.

Gentlemen:

Relative to the Ordinance creating ten temporary positions in the Division of Design, Bureau of Engineering, Department of Public Works, may I say that I am informed by Director Lang that these positions are temporary and just as soon as the work to which the men will be assigned is completed, they will no longer exist. Both Director Lang and Mr. Reppert insist that these are necessary to carry on the work that is outlined for this coming summer.

I therefore recommend the passage of the same.

Respectfully yours,

CHARLES H. KLINE,

Mayor.

And the bill was read a second time.

Mr. English at this time stated that the letter transmitting the ordinance contained the desired information relative to the estimated cost, and asked that the clerk read the letter and it be printed in full.

And the Clerk read the following:

Pittsburgh, Pa., April 26, 1930.
President and Members of Council,
Pittsburgh, Pa.

Gentlemen:

We are transmitting herewith an ordinance providing for an agreement between the City and the Duquesne Light Company, under the terms of which, the Duquesne Light Company will furnish on a rental basis, with provisions for purchase, certain electric motor-driven pumping equipment for installation in the proposed new Brilliant Pumping Station.

With the approval of the Mayor, this agreement has been worked out by this Department with the assistance of the Law Department, and has been accepted by the representatives of the Duquesne Light Company. The City Solicitor has approved the draft of the ordinance as submitted.

In line with the previous recommendations, it is proposed to build an entirely new pumping station to replace the present Brilliant Station, the equipment of which is obsolete, in bad condition and wasteful. It is proposed to build a new electrically-operated station adjoining the present station, and to finance the same as follows:
By appropriation of funds from

People's Bond Fund No. 267 of
1926, out of available balance, the
sum of\$700,000

(An ordinance for this is concurrently submitted).

To install under the lease agreement, per ordinance agreement herewith submitted, the main motors and pumps, the estimated cost of which is about..... 165,000

Total Estimated Cost\$865,000

In addition, funds are available for engineering expenses, and in order to finance the cost of plans and supervision, we are herewith concurrently submitting an ordinance appropriating the sum of \$25,000 from People's Bond Fund No. 267 of the issue of 1926. The funds so appropriated will be sufficient to take care of all engineering expenses for this project during the current year.

Owing to the condition of present Brilliant Pumping Station, and the risks and maintenance cost involved in its operation, we respectfully request your early consideration and action on the legislation heretofore mentioned.

It will require sixteen months to place the new station in operation, but owing to

the existing conditions it is planned to place one of the new units temporarily in the present station to act as a standby in the event of a serious breakdown of the old equipment, and this unit will be installed and in operation in about five months.

If these ordinances are passed, ordinances will be presented later, authorizing the purchase of power from the Duquesne Light Company at established rates, both for the temporary installation and for the permanent installation.

Yours very truly,
EDWARD G. LANG,
Director.

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

No. 933.

Pittsburgh, Pa., May 3, 1930.

Department of Law,

Chas. A. Waldschmidt,

City Solicitor.

FINANCE COMMITTEE OF COUNCIL.

Gentlemen:

In re Bill No. 874, An Ordinance amending a portion of Section 67, Department of Public Works, Bureau of Highways and Sewers, Division Offices of an ordinance entitled, "An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh and the rate of compensation thereof", approved March 1, 1930, which, at a meeting of your Committee held April 29, 1930, was given an affirmative recommendation subject to report from the Law Department, I advise you as follows:

Section 2 of this Ordinance provides that this Ordinance shall be effective as of April 16, 1930. I am of the opinion that you have no authority to pass an Ordinance fixing the salary as of date prior to the passage of an amending Ordinance. The Ordinance speaks from the time of its approval by the Mayor, and, therefore, this part of the Ordinance would be merely surplusage.

Council may in an individual case pass an Ordinance allowing extra compensation by a two-thirds vote of Council and the signature of the Mayor, but cannot pass a general Ordinance to take effect sometime prior to the approval of said Ordinance.

Respectfully yours,

CHAS. A. WALDSCHMIDT,

City Solicitor.

Which was read, received and filed.

Mr. Kambach moved

To amend the bill by striking out Section 2, as suggested by the City Solicitor's communication, as follows:

"Section 2. This ordinance is effective as of April 16, 1930."

Which motion prevailed.

And the bill, as read a second time and amended, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Alderdice	Kambach
Connelley	Little
English	Muldowney
Garland	Herron, (Pres't.)

Ayes 8. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

MOTIONS AND RESOLUTIONS.

Mr. Little, at this time obtained leave, and presented

No. 1007. Communication from R. P. Brown, of Quaker City Rubber Co., protesting the award of certain contracts for fire and street hose and asking for a hearing on same.

Which was read and referred to the Committee on Finance and hearing to be arranged.

Mr. Muldowney presented

No. 1008. Resolution authorizing the Mayor to sign a petition, on behalf of the City of Pittsburgh, for the grading, paving and curbing of Emma street, between Wallace street and Battalion way.

Which was read and referred to the Committee on Public Works.

Mr. Anderson arose to a question of personal privilege, and said

Mr. President, I arise to a question of personal privilege. A statement appeared in the daily newspaper with reference to a letter signed by the members of Council endorsing the appointment of James P. Anderson for the position of Postmaster at Pittsburgh. The statement recited the fact that eight members of Council endorsed Mr. Anderson for the position of Postmaster, leading his friends and my friends to think that I was opposed to his appointment.

I wish to state that on or about February 9th I had written a letter to Hon. David A. Reed, United States Senator, in behalf of Mr. Anderson, in which I asked Senator Reed to use whatever influence he had to have Mr. Anderson appointed. I received an answer from Senator Reed's Secretary at that time, in which he said that the Senator was on his way to Europe, but on his return he would have it called to the Senator's attention and was sure that it would receive the proper recognition which he thought it was entitled to.

I transmitted the answer from Secretary Reed's Secretary to Mr. Anderson.

I merely make this statement for the reason that I do not wish either Mr. Anderson's friends or my friends to think that I am not in hearty accord with his desire to be appointed Postmaster at Pittsburgh.

The Chair said:

Just as a matter of clearing up our record, I wish to state that no action endorsing Mr. Anderson took place in Council. One of the members of Council asked those members present to sign individual letters to the United States Senators and the Congressman from the Pittsburgh District. The story which appeared in the Pittsburgh newspapers emanated from Washington.

Mr. English moved

That the Minutes of Council, at a meeting held on Monday, May 5th, 1930, be approved.

Which motion prevailed.

And on motion of Mr. Little

Council adjourned.

City of Pittsburgh, Penna.

Department of Public Safety,

James M. Clark, Director.

May 23, 1930.

To the President and Members, City Council.
Gentlemen:

The National Conference on Street and Highway Safety will convene in Washington, D. C., on May 27th, 28th and 29th, 1930.

Mr. Frank L. Duggan, Chairman of the Better Traffic Committee, recommends that Mr. Donald M. McNeil, Assistant Traffic Engineer of the Bureau of Traffic Planning and Mr. Alfred M. Lee, Education Secretary of the Better Traffic Committee, be delegated to these meetings for the reason that im-

portant matters relative to traffic regulations, etc., will be discussed at this Conference.

I believe it would be advantageous to the City of Pittsburgh to have these men attend this Conference and hereby request authorization of your Honorable Body to delegate them accordingly.

Trusting this request meets with the approval of your Honorable Body, I am,

Yours very truly,

JAMES M. CLARK,

Director.

NINETY-SIXTH COUNCIL

COUNCIL

JOHN S. HERRON.....President

ROBERT CLARK.....City Clerk

EDW. W. LINDSAY.....Ass't City Clerk

Pittsburgh, Pa.,

Thursday, May 29, 1930.

Council met pursuant to the following call:

Pittsburgh, Pa.

May 27, 1930.

Mr. Robt. Clark,
Clerk of Council.

Dear Sir:

Please call a special meeting of Council for Thursday, May 29, 1930, at 1 o'clock, P. M. (Eastern Standard Time), for the purpose of electing a successor to the late Daniel Winters, City Controller.

Yours very truly,

JOHN S. HERRON,

President of Council.

Which was read, received and filed.

Present:—Messrs.

Alderdice

Anderson

Connelley

Herron, (Pres't.)

The Chair stated

That the purpose of the meeting, as stated in the call, was to elect a City

Controller to fill the vacancy caused by the death of Daniel Winters, and nominations would be in order.

Mr. English arose and said:

Mr. President, I arise at this time to place in nomination for the position of City Controller, the name of one who is familiar with the business of the City of Pittsburgh. Certainly the members of Council know that it is best that we have in the office of Controller some one who understands city business and its finances.

I think we are very fortunate that we are able to obtain the services of a man who was appointed to the original Council of Nine in 1911. He served with credit in Council. He left the Council to go to war to serve his country. Since he came back and has been in private life he has kept in touch with municipal affairs. It is well for the City and Council that we are able to draft him for the position of City Controller. I feel sure that if the members of Council will look at it as I do, and I hope all of them do, that Dr. James P. Kerr, the man whom I nominate, will be elected to the office of City Controller.

Mr. Kambach arose and said:

Mr. President, It affords me a great deal of pleasure to second the nomination offered by Mr. English. I have known the nominee for many years. I have been closely associated with him in many civic movements. He was a very close friend of the late Controller. As Mr. English has said, he was one of the original members of the Council of Nine. He served that body well. He was returned to that office many times by the people of this city, and served until his country called him. He answered that call, and when he returned to his home again he resumed the practice of medicine, in which he holds a distinguished place.

In seconding the nomination of him, I feel that we are placing in the office of Controller a man to whom the people may

well look to for splendid service. He has shown a knowledge of civic matters as a member of this body. He has presided over the destinies of this body for several years and has thereby manifested his executive ability. I am sure that if we elect him to this office we shall place there a man of whom we may well be proud and of whom the public will say, well done.

Mr. Connelley arose and said:

Mr. President, In seconding, also, the nomination of Dr. Kerr, I wish to say that being a member of the School Board for a number of years before coming into Council, I realize the duties of the Controller as no other man would realize them. I feel that Dr. Kerr is eminently fitted for this position, because of his knowledge of municipal affairs and of the service he rendered the City of Pittsburgh as a member of City Council.

During the time of the World War he was made glorious in the hearts of the people perhaps as no other man. A relative of mine, "Bob" Egan, was a newspaper man and he told me of some things that would bear repetition about the wonderfulness of Dr. Kerr in his work, in hospitals in this country and abroad, and he told me also of this. He said, that Dr. Kerr at the time when he enlisted gave up his work in America and served his country well. This was also testified to by Father Coakley and Roger Flannery—and these three persons combined told of the wonderful work done by Dr. Kerr, and I know of no one that I would second the nomination of with greater pleasure than I would of Dr. Kerr; and I move you, Mr. Chairman, that the nominations close on the name of Dr. Kerr.

Mr. Garland arose and said:

Mr. President, I second the motion to close the nomination on the name of Dr. Kerr. In supporting the motion for his election, I want to say that I more than any other man served a longer period in Council with Dr. Kerr. I can testify to his integrity, honesty and ability. He has a knowledge of city business given to few men, and I know that he will conduct the office of Controller better than any other man. He has a wonderful grasp of councilmanic business that a controller should have, and with his knowledge of municipal affairs and standing in the community, I am glad to lend my voice in seconding his nomination.

Mr. Anderson arose and said:

Mr. President, I do not think it is Mr.

Connelley's intention to prevent the other members of Council saying a few kind words about Dr. Kerr by his motion.

The Chair said:

I do not think that is Mr. Connelley's intention. You may proceed, Mr. Anderson.

Mr. Anderson continued:

I want to say, Mr. President, that I have known Dr. Kerr for 20 years and during 11 years that I served as a member of Council, and I know of no duty that comes before Council that gives me more pleasure than to vote for him. I know that during Dr. Kerr's term as a councilman he always showed that independence that the people so much admire. There is no doubt in my mind that the Council is doing the right thing in selecting a man who is independent and will show his independence in regard to the conduct of the office to which we are about to elect him. I also feel that he will not alone fill the office with credit to himself, but to all the people of Pittsburgh, and I assure you that it is a pleasure to vote for Dr. Kerr.

Mr. Alderdice arose and said:

Mr. President, I, too, am very glad to second the nomination of Dr. Kerr. I never had the fortune to sit in Council with Dr. Kerr, but I was Superintendent of Police at that time and also a Police Commissioner, and I became very friendly with him during my term. I want to say that I never went to him for any assistance or help that it was not always forthcoming. I assure you that it is a pleasure for me to vote for Dr. Kerr. The city is to be congratulated in securing a man of his caliber to fill this position, and I assure you that I am ready to vote to put him in that office.

Mr. Little arose and said:

Mr. President, Knowing Dr. Kerr as I do, I consider it a pleasure to cast my vote for him. His great experience as a city councilman fits him for the office. I think the man who fills this position should have had some municipal experience. Of the last three controllers, two of them were former city councilmen and excellent men. I believe Dr. Kerr knows the troubles of the present city council, and I believe he will cooperate with them, and the City of Pittsburgh will be benefited by having Dr. Kerr as City Controller.

Mr. Muldowney arose and said:

Mr. President, Having known Dr. Kerr for many years I feel positive as to do all the

members of Council and the people of the City of Pittsburgh, that as City Controller he will prove himself to be capable in every respect. I was very close to his very close friend Daniel Winters, and on many occasions I was in close contact with him and as the other members have said, I think the City of Pittsburgh is fortunate in having the type of man as Dr. Kerr to serve as City Controller; and I consider it a pleasure to be in a position to vote for him.

The Chair:

Gentlemen, you have heard the motion, that the nominations close on the name of Dr. Kerr.

And the question, recurring on the motion, of Mr. Connelley, that the nomination close on the name of Dr. Kerr.

The motion prevailed.

The Chair said:

Gentlemen, I want to congratulate you on having an unanimous opinion of such a wonderful man as Dr. Kerr. The Clerk will call the roll on the name of Dr. James P. Kerr.

And the result of the voting was as follows:

For Dr. James P. Kerr.

Messrs.	
Alderdice	Garland
Anderson	Kambach
Connelley	Little
English	Muldowney
	Herron (Pres't.)

And Dr. James P. Kerr received nine votes.

And Dr. James P. Kerr having received a majority of the votes of Council, was declared duly elected City Controller for the unexpired term.

The Chair said:

It is the duty of the Chair to notify the Mayor that we have just elected a Controller. The Chair will appoint Messrs. Garland and Little to notify Dr. Kerr to appear, and Messrs. English and Kambach to notify the Mayor that Dr. Kerr is ready to be sworn into office.

And the Committees retired and having returned with the Controller-elect, Dr. James P. Kerr, and His Honor, Charles H. Kline, Mayor, the Chair said:

Your Honor, Council has unanimously elected Dr. Kerr as City Controller, and we want you to swear him in. He is our friend and your friend and we want him

to start off right. We hope Dr. Kerr will be the best controller we ever had.

And Dr. James P. Kerr took and subscribed to the oath of office, which was administered to him by Mayor Kline.

Mayor Kline said:

Ladies and Gentlemen, I now have the honor and pleasure of introducing to you the new Controller of the City of Pittsburgh, Dr. James P. Kerr.

And Dr. Kerr said:

Your Honor, Mr. President, Ladies and Gentlemen: One in my position today would be entirely devoid of human sentiment if his heart were not touched. It is but a few short weeks that we stood in this room and inducted into this office my friend and my pal. His physical condition was such that he was unable to actively engage in the duties of his office and few knew what ideas he had with regard to the office and the policy that he would inaugurate. I probably knew more than anyone else what these ideas were, and I want to say to you that I shall endeavor to carry out the policies he had in mind as near as possible. I shall conduct the office of City Controller along business and efficient lines and in harmony with the administration, and I hope with the cooperation of all the members of Council.

I go into this office with a constructive mind and for the purpose of doing constructive things, and I shall do everything I can to conduct the business of the office with dispatch and in the most efficient manner possible.

Mr. Connelley, at this time, obtained leave, and presented

No. 1091.

County of Allegheny,
Pittsburgh, Pa.,
May 29, 1930.

To the Members of Council,
City of Pittsburgh.

Gentlemen:

Permission is hereby requested to have the use of the Schenley Park Golf Course on July 7, next, for the purpose of holding the annual Sun-Telegraph Junior and Sub Junior Tournament.

This tournament will be attended by close to 1000 boys from 12 to 18 years and the course has been set aside during the past two years for this purpose. It is recognized as one of the outstanding events for

the younger generation conducted in this community.

On behalf of the management of the Sun Telegraph I would respectfully ask that this date be set aside for this purpose. This affair has the hearty support and approval of Director Lang and we have selected a date when the least possible inconvenience to the regular players would result.

Very respectfully yours,

JOHN JAY BURKE

Which was read, received and filed, and on motion of Mr. Connelley, request granted.

And there being no further business before the meeting, the Chair declared

Council adjourned.

Bill No. 252. WHEREAS under the Workmen's Compensation Act of Pennsylvania the City of Pittsburgh has a right of subrogation against the Baker Office Furniture Company to the extent of any compensation paid to or on behalf of the widow and children of Carmine Talarico, a former city employee in the Bureau of Highways and Sewers of the Department of Public Works, who was killed in the line of his duty March 1, 1927, and

WHEREAS the widow and children recovered a verdict of \$5,000.00 against said Baker Office Furniture Company at No. 3717 July Term, 1927 in the Court of Common Pleas of Allegheny County, Pennsylvania, said verdict being for damages

occasioned by the death of the said Carmine Talarico, and

WHEREAS the said widow and six children are almost destitute by reason of the loss of the husband and father.

BE IT RESOLVED that the City of Pittsburgh waives its right to subrogation under the terms of the Workmen's Compensation Act and releases the Baker Office Furniture Company from any claim thereunder so that Teresa Talarico may have the right to all money recovered in said verdict and to effect this waiver of right the City Solicitor is authorized to do all things necessary to properly release the Baker Office Furniture Company and satisfy the record at the above number and term.

BE IT FURTHER RESOLVED that payments of compensation shall continue to the widow and children under the terms of the Compensation Agreement entered into by and on behalf of said widow and children and the City of Pittsburgh in the same manner as if a verdict had never been recovered against said third party, the Baker Office Furniture Company.

In Finance Committee, May 27, 1930, read and amended by striking out the first "Resolved Clause" and by inserting in lieu thereof the following: "Resolved, That the City of Pittsburgh waives the right of subrogation under the Workmen's Compensation Act to any amount of said verdict in excess of the sum of \$1,960.00 and release the Baker Office Furniture Co. from any claim in excess of said amount, to wit: \$1,960.00, so that the said Theresa Talarico may have the right to all of said money in excess of the sum of \$1,960.00, recovered in said verdict, and to effect this waiver of right the City Solicitor is authorized to do all things necessary to properly release the Baker Office Furniture Co. and satisfy the record at the above number and term upon the payment to the City of the sum of \$1,960.00", and as amended ordered returned to council with an affirmative recommendation.

REPORTS OF SPECIAL COMMITTEES.

Mr. Kambach presented from Special Committee

No. 1155.

WHEREAS, on that bright warm spring day, May 8th, 1930, as the sun was setting in the West and the shadows of night were creeping over the sky, Daniel Winters, growing weary, said "Good-night" and passed on to "the Realm where the rainbows never fade; where the stars will be spread out before us like islands that slumber in the ocean; and where the beautiful beings which now pass before us like shadows will stay in our presence forever"; and

WHEREAS, his earthy existence began February 4th, 1876, under humble circumstances; and in his native city of Pittsburgh, received a common school education; then entered the window glass house and became a glass cutter, taking a deep interest in the organization of his fellow workers; and

WHEREAS, he delighted to read the history of his beloved United States, and was an admirer of the patriots and public men who contributed to the founding and development of our institutions, thereby acquiring a knowledge of affairs and a liking for public life; and

WHEREAS, he held the office of Police Magistrate; Assistant to the Director of Public Safety; Councilman, serving as President of the City Council; and finally, Controller of the City of his nativity, which office he held when stricken; and

WHEREAS, he was a student of civic matters and took a deep interest in the welfare of the community in which he lived and in the City of Pittsburgh; and

WHEREAS, he loved his fellow-men, he became a fraternal man and allied himself with the Fraternal Order of Eagles; the

Loyal Order of Moose, presiding over Lodge No. 46; the Benevolent and Protective Order of Elks, being a Past Exalted Ruler of Pittsburgh Lodge No. 11; Monongahela Lodge No. 269, Free and Accepted Masons; Duquesne Chapter No. 193, Royal Arch Masons; Pittsburgh Commandery No. 1, Knights Templar; Syria Temple of the Ancient Arabic Order of Nobles of the Mystic Shrine; Islam Grotto No. 35, M. O. V. P. E. R., and Pittsburgh Chapter, Sons of the American Revolution; and

WHEREAS, by these varied activities and natural ability, he developed a human touch, a personality, a charm, a keen insight into affairs, and became one of the most popular and capable men in public life in this community; and by his frankness and courage and his courteous treatment of all who had dealings with him, endeared himself to them;

THEREFORE, BE IT RESOLVED, that in the passing of Daniel Winters, the City of Pittsburgh has lost an honored and respected citizen; and the Council and the Mayor have lost a faithful and efficient co-worker; and take this means of expressing their sincere regret in his untimely death, and hereby extend to the bereaved family their heartfelt sympathy in this hour of their great loss; and

BE IT FURTHER RESOLVED, that this resolution be spread in full upon the record of Council and an engrossed copy thereof sent to the family.

"Thy presence sweet

Still through long years of vigil I may share,

For if from that enchanted spirit-land

Thy healthful thought into my soul may shine

(E'en though thy voice be still and cold thy hand.)

To lift my life and make it pure as thine;

Then, though thy place on earth a void

must be,

Beloved friend, thou art not dead to me."

Which was read.

Mr. Kambach moved

The adoption of the resolution.

Which motion prevailed by an unanimous rising vote.

MOTIONS AND RESOLUTIONS.

Mr. English, at this time, obtained leave, and presented

No. 1156. An Ordinance directing the City Controller to appropriate and set aside the sum of sixty-three hundred (\$6,300.00) dollars from Account No. 272, Street

PRESENTATIONS.

Mr. Alderdice presented

No. 1213. An Ordinance opening Bowden street (formerly Bothwell street) in the 11th Ward of the City of Pittsburgh, from North St. Clair street to North Euclid avenue, establishing the grade thereof and providing that the costs, damages and expenses occasioned thereby be assessed against and collected from properties benefited thereby.

Which was read and referred to the Committee on Public Works.

Also

No. 1214. An Ordinance fixing and

re-fixing the width and position of the sidewalk, roadway, stairway and walkway on Horace street, from the Liberty Bridge Approach to the Boulevard of the Allies, providing for walls, sloping and parking and establishing and re-establishing the grade thereof.

Which was read and referred to the Committee on Public Service and Surveys.

Mr. English (for Mr. Connelley) presented

No. 1215. An Ordinance authorizing the Mayor and the Director of the Department of Public Works to advertise for proposals and to award contracts for the reconstruction of a roadway and drainage system at the Horseshoe Curve bend on the main road in Riverview Park, and providing for the payment of the cost thereof.

Also

No. 1216. An Ordinance authorizing the Mayor and the Director of the Department of Public Works to advertise for proposals and to award contracts for the reconstruction of roof of the main building of the Highland Park Zoo, and providing for the payment of the cost thereof.

Which were read and referred to the Committee on Parks and Libraries.

Mr. English presented

No. 1217. An Ordinance amending Section 46, Department of Public Safety, Bureau of Police, of an Ordinance entitled, "An Ordinance fixing the number of officers and employes of all departments of the City of Pittsburgh, and the rate of compensation thereof", approved March 1, 1930.

Also

No. 1218. Resolution authorizing the issuing of a warrant in favor of Melvin W. Page in the sum of \$53.08, covering refund of over-assessment in this amount for the construction of sidewalk in front of his property at 801 Gallion avenue, and charging same to Code Account No.....

Also

No. 1219. Resolution authorizing and directing the City Controller to transfer funds in the amount of \$5,000.00 from Code Account 298, Playground Improvement Bonds, to code account to be known as 298-X, Improvement Highland Park, for the payment of the cost of wages, materials, tools, supplies, repairs, truck hire and miscellaneous services, and authorizing the issuing of warrants drawn on said fund for the payment of bill-rolls and payrolls incurred in said work.

Also

No. 1220. Resolution authorizing and directing the Mayor to execute and deliver a deed to Elias R. Desibaugh for Lot No. 63 in Samuel Cobins Plan, located on Herschel street, 20th Ward, for the sum of \$200.00, providing the purchase money shall be paid within 60 days from the date of approval hereof.

Also

No. 1221. An Ordinance directing the City Controller to appropriate and set aside the sum of Nineteen Thousand (\$19,000.00) Dollars, from Account No. 1765-M, Special Meter Operators, for the payment of all expenses, including Salaries, Wages, Supplies, Materials, Equipment and Miscellaneous Services incident to work to be performed by the Bureau of Water under the special meter operations, Account No. 1765-M.

Also

No. 1222. Resolution authorizing and directing the City Controller to transfer the sum of \$500.00 from Code Account 1228, Salaries, Regular Employees, Tuberculosis Hospital, to Code Account 1233, Repairs, Tuberculosis Hospital, to be set aside for contracts for repairs of elevators at Tuberculosis Hospital requested by the Bureau of Building Inspection.

Also

No. 1223. An Ordinance amending portions of Sections 1 and 2 of an ordinance entitled, "An Ordinance authorizing and directing the Mayor and the Director of the Department of Public Health to advertise for proposals and to award a contract or contracts for the screening of new building covering brine lines and elevator improvements and repairs at the Tuberculosis Hospital, located at Leech Farm, Pittsburgh, Pa., and authorizing the setting aside of Three Thousand Eight Hundred (\$3,800.00) Dollars from Code 1233, Repairs, Tubercu-

losis Hospital, for the payment of the cost thereof", approved by the Mayor, March 28th, 1929.

Also

No. 1224. Resolution authorizing and directing the City Controller to transfer the sum of \$10,000.00 from Code Account No. 1443, Bureau of Police, Salaries, Regular Employees, and \$10,000.00 from Code Account No. 1461, Bureau of Fire, Regular Employees, to Code Account No. 1765, Bureau of Water, Special Meter Operation.

No. 1232. Resolution authorizing the issuing of a warrant in favor of the Babcock and Wilcox Company for the sum of \$533.59, as payment in full for repairs to superheaters on Boilers Nos. 1 and 2 at Brilliant Pumping Station, and charging same to Appropriation No. 1758, Repairs.

Which were read and referred to the Committee on Filtration and Water.

Mr. Kambach presented

No. 1233. Resolution authorizing the issuing of a warrant in favor of the Animal Rescue League of Pittsburgh for the sum of \$1,040.00, covering work done during the month of May, 1930, and charging the same to Code Account No. 1458, Item B, Miscellaneous Services, Dog Pound, Bureau of Police.

Also

No. 1234. An Ordinance requiring the operator of any motor vehicle involved in an accident in the City of Pittsburgh, resulting in injuries or death to any person

or total property damage to an apparent extent of \$50.00 or more, to report same in duplicate to the Department of Public Safety, City of Pittsburgh, within 24 hours, and providing penalties for the violation thereof.

Which were read and referred to the Committee on Public Safety.

Also

No. 1235. An Ordinance authorizing and directing the grading, paving and curbing of Kenilworth avenue, from Pioneer avenue to Knowlson avenue, including, as may be necessary, the grading of approaches on streets affected thereby and sinking of exploratory test holes, letting a contract or contracts therefor, and providing that the costs, damages and expenses of the same be assessed against and collected from property specially benefited thereby, and providing, further, for the payment of the City's share thereof.

Which was read and referred to the Committee on Public Works.

Also

No. 1236. Communication from the Better Traffic Committee, relative to the improvement of Woodruff street and Independence street.

Which was read, received and filed.

Mr. English presented

No. 1237. Communication from the Trinity Lutheran Church, asking for the vacation of Caruso way, from Sherwood street to a private property line.

Which was read and referred to the Committee on Public Service and Surveys.

Mr. Muldowney (for Mr. Little) presented

No. 1238. Resolution authorizing the issuing of a warrant in favor of Red Cabs of Pittsburgh, 1902 Brighton road, in the sum of \$28.05, covering claim for cost of repairs to one of their cabs, which was damaged by Patrol Wagon of the City of Pittsburgh while parked in front of cab stand at 427 Fifth avenue, November 10, 1929, and charging same to Code Account No. 42, Contingent Fund.

Which was read and referred to the Committee on Finance.

Also

No. 1239. An Ordinance authorizing and directing the construction of a public sewer on Belvidere street, private property of the City of Pittsburgh and Chopin street,

from a point about 20 ft. northeast of Lorigan street to the existing sewers on Wilconna street and the private property of the City of Pittsburgh, northeast of Chopin street, including, as may be necessary, the excavation of exploratory test holes, and providing for the letting of a contract or contracts therefor, and providing that the costs, damages and expenses of the same be assessed against and collected from property specially benefited thereby.

Also

No. 1240. An Ordinance authorizing and directing the construction of a public sewer on Ashby street and Risher street (formerly Hays Borough), from points about 900 ft. north and 750 ft. south of Risher street to the existing sewer on Risher street, east of Ashby street, including, as may be necessary, the excavation of exploratory test holes, and providing for the letting of a contract or contracts therefor, and providing that the costs, damages and expenses of the same be assessed against and collected from property specially benefited thereby.

Also

No. 1241. An Ordinance authorizing and directing the construction of a storm sewer and doing other work incidental thereto through private property of the City of Pittsburgh (Frick Park), from the overflow of the existing 60" sewer south of Forbes street to a point southeastwardly along Nine Mile Run for a distance of about 180 ft., and also the construction of a special gate over the outlet of the Phillips avenue sewer, and authorizing the setting aside the sum of Five Thousand (\$5,000.00) Dollars from the proceeds of Bond Fund No. 295, Peoples Bond Issue 1928, for the payment of the cost thereof, and further authorizing and providing for the letting of a contract or contracts therefor.

Also

No. 1242. An Ordinance authorizing the Mayor and the Director of the Department of Public Works to advertise for proposals and to award a contract or contracts for the construction of a sewer on the roadway and north sidewalk of Schubert street, from a point at or near the westerly terminus of Schubert street to the existing sewer on the north sidewalk of Schubert street, west of Schurz street, including, as may be necessary, the excavation of exploratory test holes, and authorizing the setting aside the sum of Two Thousand Four Hundred (\$2,-

400.00) Dollars, from Code Account 1548-E, Repair Schedule, Division of Sewers, Bureau of Engineering, for the payment of the cost thereof, and further authorizing and providing for the letting of a contract or contracts therefor.

Also

No. 1243. An Ordinance authorizing the Mayor and the Director of the Department of Public Works to advertise for proposals and to award a contract or contracts for the construction of Catch Basins, Catch Basin Connections and other work incidental thereto in the Mossfield Street Drainage Basin, and authorizing the setting aside the sum of Twelve Thousand (\$12,000.00) Dollars, from Code Account 1548-E, Repair Schedule, Bureau of Engineering, Division of Sewers, for the payment of the costs thereof.

Also

No. 1244. An Ordinance authorizing and directing the grading, paving and curbing of Sacramento street, from the present paving near Nayton way to Strickler street, including, as may be necessary, the grading of approaches on streets affected thereby and sinking of exploratory test holes, letting a contract or contracts therefor, and providing that the costs, damages and expenses of the same be assessed against and collected from property specially benefited thereby, and providing, further, for the payment of the City's share thereof.

Also

No. 1245. An Ordinance authorizing and directing the grading to width of 20 feet and 25 feet, paving and curbing of Owendale avenue, that portion within the corporate limits of the City of Pittsburgh, from Brownsville road to the westerly line of Kestner avenue, including, as may be necessary, the grading of approaches on streets affected thereby and sinking of exploratory test holes, letting a contract or contracts therefor, and providing that the costs, damages and expenses of the same be assessed against and collected from property specially benefited thereby, and providing, further, for the payment of the City's share thereof.

Also

No. 1246. An Ordinance authorizing and directing the improvement of Horace street, from the Liberty Bridge Approach to the Boulevard of the Allies, by grading, paving, curbing and otherwise improving the portion thereof extending from the Liberty

Bridge Approach to a point 159.64 feet north of the Boulevard of the Allies, and by constructing a viaduct and otherwise improving the portion extending from aforesaid point 159.64 feet north of the Boulevard of the Allies to the Boulevard of the Allies, including the construction of stairs and walkway connecting the sidewalk on said viaduct and the south sidewalk of the Boulevard of the Allies, and including, as may be necessary, the grading of approaches on streets affected thereby and sinking of exploratory test holes, letting a contract or contracts therefor, and providing that the costs, damages and expenses of the same be assessed against and collected from property specially benefited thereby, and providing, further, for the payment of the City's share thereof.

Also

No. 1247. The Chair presented

No. 1253.

DEPARTMENT OF PUBLIC WORKS.

June 9, 1930.

Subject: Request for Additional Bond Issue Funds for Water Works Purposes.

To the Mayor and President and Members of Council, City of Pittsburgh.

Gentlemen:

Supplementing communication of this date, recommending authorization of additional bond issue funds, we have to furnish the following information in regard to the several items.

IMPROVEMENT OF SQUIRREL HILL AND HERRON HILL WATER SUPPLY.

The water supply of considerable sections of the City between the rivers, which lie at high elevations, is furnished through the present Herron Hill Pumping Station, which

receives its supply from Highland Reservoir No. 1, and pumps this water to Herron Hill and Bedford Reservoirs, from whence the Garfield district, certain territory around Highland Park, the Bedford Hill district and Squirrel Hill are supplied.

The situation at the present time is as follows: New equipment is needed at Herron Hill Pumping Station, and the Department has proposed for a number of years the replacement of the present steam operated plant with electrically operated centrifugal pumps. The present station is operated with gas fired boilers. The equipment is old, and the demand exceeds the capacity at times; Herron Hill Reservoir is very small, compared with the requirements. It has a capacity of 11.5 M. G. The peak load of the present service is something in excess of 17 M. G.

The water is furnished to this station by a 30" supply main, which has a limited capacity of about 15 M. G. Any material addition to the supply to this station can be furnished only by constructing an additional supply main from Highland Reservoir No. 1, at a cost of approximately \$500,000.

The demand of the territory served by this station has been rapidly increasing, as is indicated by the fact that the station pumped about 11 M. G. D. in 1927, and more recently a peak demand of over 17 M. G. D. has had to be met. The demand is increasing, particularly in Squirrel Hill, due to its building up, and the construction of many apartment buildings. There have been occasions in the past when the failure of the supply has been imminent, and such a failure could be brought about by three causes, as follows:

1st.—By the continued rapid increase of demand.

2nd.—A failure of the pumps, reservoir, or supply main, or to an unusual demand, such as recently existed, or a large fire.

3rd.—By a continued draught.

From time to time, the Department has taken steps to alleviate the situation by constructing additional mains, but no additional relief can be provided in this direction.

There are two conditions existing with respect to the high level territory served by this section, particularly the Squirrel Hill district, and there is a continuous lack of pressure in certain districts, among which may be noted Beacon Hill, the high level areas in the Greenfield section, and also in

the Garfield section. Some of the premises affected have very little pressure, in some, the water cannot be supplied to the upper floors. Such a condition may be described as being a chronic one.

There have been a few occasions of acute trouble where the water supply of certain premises in the foregoing areas has entirely failed. Such a condition existed last week, due to two causes:

1st.—The necessity of overhauling one of the old 6 M. G. D. pumps in Herron Hill Station.

2nd.—The excessive demand due to the dry spell, and largely brought about by the excessive use of lawn sprinklers, and the additional demand received from swimming pools.

From the foregoing, two things are evident:

1st.—That Herron Hill Station will have to be re-equipped with new pumping-units.

2nd.—Something will have to be done to furnish a more adequate supply to the high level areas, and to the districts served by this station.

After considering various methods of accomplishing desired results, the Department proposes the following:

a. Construct a new distribution reservoir on the high ground lying East of the City line in the Lincoln avenue district, this being designated as "the proposed Lincoln Reservoir", and build a booster pumping station and rising main to furnish water to the new reservoir from Highland Reservoir No. 1, and a new supply main from the reservoir to the Squirrel Hill district. It is proposed to build a reservoir of 20 M. G. capacity.

b. It is further proposed to install a small booster pumping station at a cost of \$12,000, to raise the pressures in the Garfield and Highland avenue districts. The total cost of the foregoing project is \$1,322,000.

The only alternate which can be considered would be the re-equipment of Herron Hill Pumping Station, and providing at that time, additional pumping capacity in combination with the new supply main from Highland Reservoir No. 1; and, in addition, building new distribution lines from the station to Squirrel Hill. Such a project would cost at least \$1,000,000, and would not have the great advantage of the Lincoln Reservoir project, as no additional reservoir

capacity would be provided, and on the basis of operation, the Lincoln Reservoir scheme is the cheaper as the supply increases. It has the great further advantage of providing two sources of supply to the districts served, which is of great value.

The Department recommends for immediate consideration, a short additional pipe line and a booster station, at a cost of \$40,000.00, to serve the Beacon Hill and Garfield districts, and the immediate installation of a 3 M. G. pumping unit in the present station, to increase the capacity of the station to the limit of possible supply. It is proposed to operate the new 3 M. G. pump by connecting up with lines not now used as a source of supply to this station. The installation of this pumping unit will cost about \$20,000, including necessary piping and connections.

NEW LINE ON SOUTH TENTH STREET BRIDGE.

The present South Tenth Street Bridge will be demolished and a new bridge constructed, beginning this year, by Allegheny County. The existing 24" steel mains have reached the limit of life and cannot be relaid, and it is, therefore, necessary to provide \$45,000 for the construction of two 24" lines on the new bridge.

REPLACEMENT OF LINE ON SMALLMAN STREET.

The existing 42" pipe line on Smallman street has suffered excessive deterioration from electrolysis and galvanic action, and as this line is necessary to maintain the supply in the Penn avenue and downtown districts, its replacement with a new line is urgently needed at an estimated cost of \$220,000.

NEW BRILLIANT STATION RISING MAIN.

Authorization has been granted to construct a new Brilliant Pumping Station and, in connection with this project, it is necessary from a standpoint of safeguarding the service, to construct a new rising main from the Station to Highland Reservoir No. 2. At the present time there is but one line leading from the station site to this Reservoir.

PROTECTION OF ASPINWALL-LANPHER RESERVOIR RISING MAIN.

The pipe lines connecting Aspinwall Pumping Station with the North Side distribution systems has been a matter of considerable concern to the Department for some years.

For the purpose of this service, the old 60" steel main, constructed by the former City of Allegheny in 1895, is used. The first section extends as a rising main from Aspinwall Pumping Station to Lanpher Reservoir. At certain points, particularly where it passes through Sharpsburg, it has been seriously affected by electrolysis, and the protection of the line—which is the sole source of supply—by concrete sheathing, is necessary to prevent serious failure. The estimated cost of this work is \$50,000.

REPLACEMENT MAIN IN MAIN STREET DISTRICT OF THE WEST END.

This line will extend from Carson street to the territory of Banksville road. Many complaints of shortage of water in this territory have been received in the last two or three years, due to rapid manufacturing growth, and to development of annexed territory. The estimated cost of this project is \$20,000.

FILTRATION PLANT.

There are a few items of importance from an operation and economy standpoint, for the Filtration Plant, as follows:

Replacement of sand piping and repairs to baffle walls; the purchase of sand washing and sand scraping machinery at an estimated cost of \$55,000. The Department recently submitted a report recommending the purchase of an initial unit for sand cleaning by a mechanical process which, if successfully worked out, will result in a very considerable saving in operation.

REPLACEMENT OF SECTION OF HIGHLAND RESERVOIR NO. 2—SOUTH SIDE MAIN.

The main supply line to the South Side, extending from Highland Reservoir No. 2 to South 33rd street, a portion of which in the vicinity of Saline and Greenfield avenues has become badly deteriorated due to soil conditions, must be replaced at a cost of \$20,000. This is urgently needed.

PUMPING STATIONS.

It is also recommended that monies to the extent of \$102,000 be provided for improvements to the following pumping stations.

Mission Pumping Station.

The installation of a new boiler at an estimated cost of \$30,000.

Howard Pumping Station.

Repair to building, which was constructed about 1890. Also the installation of a

new air compressor, at a cost of \$52,000.

Ross Pumping Station.

Construction of a new chimney, boiler room floor and lavatory, installation of a heater and air compressor, at a cost of \$20,000.

These improvements are badly needed, as they have been postponed for many years.

Attention is also called in the schedule separately submitted, to the necessity of considering, at this time, the provision of an additional and alternate supply line from Lanpher Reservoir to the North Side distribution system. As before mentioned, the present line is a portion of the original 60" line laid by the former City of Allegheny in 1895. The fact that this is the sole line and that there have been a number of failures during the past few years due to deterioration makes it necessary to provide an additional and alternate supply line.

Yours very truly,
EDWARD G. LANG,
Director.

CHAS. M. REPPERT,
Chief Engineer, D. P. W.

DEPARTMENT OF PUBLIC WORKS.

June 9, 1930.

Honorable Charles H. Kline, Mayor,
and
President and Members of Council,
City of Pittsburgh.

Gentlemen:

Recommendation is hereby made that immediate consideration be given to the authorization of funds by Bond Issue for several pressing requirements, particularly those of the Water Works.

Financing now recommended is summarized as follows:

(A) Expenditures of certain water works requirements for improving the Squirrel Hill supply out of available funds, which are now reserved for other purposes, to be replaced by Councilmanic Bond Issue later in the year as stated in paragraph (B). \$ 60,000.00

(An Ordinance providing for the foregoing is separately submitted this date).

(B) A Councilmanic Bond Issue to be provided for on or shortly after Sept. 1st for the purpose of refunding to pipe line

accounts the above expenditure and provide additional cash for financing pipe line extensions for the balance of this year. 100,000.00

(This money is used for application lines and system improvements.)

(C) Financing by Peoples Bond Issue at such date later in the year as is deemed advisable, the following amounts for the purposes stated:

(a) For the improvement of the water supply of the Herron Hill and Squirrel Hill districts, the amount of 1,322,000.00

(This provides for the construction of a new distribution reservoir with pumping station, rising main and distribution main, for the re-equipment of the Herron Hill Pumping Station and for a small booster station for the Garfield Hill District.)

(b) For general improvement to the Water Works including the following: New line on the New So. 10th Street Bridge 45,000.00

(c) Re-placement of existing 42" line on Smallman Street Supplying downtown district. 220,000.00

(d) New rising main from the new Brilliant Pumping Station to Reservoir No. 2. 200,000.00

(e) Protection of the rising main from Aspinwall Pumping Station to Lanpher Reservoir. (This line has been seriously affected by electrolysis in certain sections.) 50,000.00

(f) Reinforcement main in the Main Street District of West End 20,000.00

(g) Replacements and equipment for filtration plant. 55,000.00

(h) Improvement for the following pumping stations; Ross, Mission Street and Howard Street 102,000.00

(i) For replacement of a section of the 50" steel line connecting Highland Reservoir No. 2 in the South Side in the vicinity of Saline Street. 20,000.00

TOTAL \$2,034,000.00

If finances will permit, funds should be provided for the construction of an additional

and alternate supply line from the Lanpher Reservoir to the North Side System. The present line was laid in 1895. There have been a number of failures during the past few years on the old line and since the North Side supply is dependent upon the same it is wise to provide the alternate line as a matter of insurance. The amount required is \$400,000.00.

It is very important that consideration at this time be given to financing of 1931 requirements for water application lines and system improvements which it is estimated will amount to about \$200,000.00.

The annual requirements for these purposes range from \$200,000.00 to \$300,000.00 and for the past few years have been provided for out of bond Councilmanic and Peoples Bond Issue Funds.

Consideration at the present time should further be given to several projects as follows:

For financing the City's obligation as provided for by an agreement between the City and Allegheny County for the approaches to the North Side West End Bridge. The total estimate of cost of the City's share is estimated at \$588,000.00 of which \$428,000.00 is the estimated cost of damages which the County has requested us to proceed with on or about September 1st, and \$160,000 is for physical work.

It is suggested that provision be made by Peoples Bond Issue in the amount of \$160,000 for the physical work which will have to be done in 1931. Amount proposed for this item, \$160,000.00.

Financing for the proposed river-rail terminal in which connection the Department is prepared to submit a report at the call of the Mayor and Council.

If finances will permit it would be well at this time to consider several street re-improvement projects, some of which have been initiated, particularly the completion of the projected re-improvement of West Canon street between the Smithfield Street Bridge and McKees Rocks, and the raising and re-improvement of streets in the North Side District.

A special report will be submitted to the proper Councilmanic Committee with regard to the necessity for the foregoing items, particularly that of improving the supply of the Herron Hill and Squirrel Hill Districts.

Yours very truly,
EDWARD G. LANG,
Director.

DEPARTMENT OF PUBLIC WORKS.

June 4, 1930

Honorable Charles H. Kline, Mayor,
and
President and Members of Council,
City of Pittsburgh.

Dear Sir:

In regard to proposed river terminals the Department advises and recommends as follows:

1. That the complete plan for the development of adequate terminals for Pittsburgh requires the development of terminals at two sites, namely on the North Side of the Ohio River a short distance below the Manchester Bridge and at Hays Station on the Monongahela River.

2. The terminals proposed are those which would be required for the anticipated volume and character of freight and for the various kinds of delivery to and from the terminal. The North Side Terminal is to be provided primarily for general merchandise and package freight and to serve the City proper owing to its central location in relation to the street system. It will provide all the facilities for the receipt, handling and movement of freight between land and river with necessary warehousing facilities. Provision is made for rail interchange which will be furnished over the Baltimore & Ohio Railroad. The site is, however, deficient in area and trackage space for the anticipated future heavy volume of heavy freight between rail and water.

The Hays Station site has an area of 15 acres and 2500 ft. of river frontage and is located on the P. & L. E. and the Pennsylvania railroads. It is very favorably located for handling the heavy movement of cars incident to the interchange of freight and possesses sufficient frontage to make possible the development of economic means of handling between river and rail.

The two sites proposed supplement each other and afford all necessary facilities.

3. The Department has made studies and has prepared general plans and estimates for the ultimate costs of complete terminals on these sites and has to report that the sites selected are adequate and adaptable for the purposes and requirements. Permits have been secured from the War Depart-

ment for the construction of terminals on both of these sites.

4. We recommend that the City participate in the development of terminals and in order that the projects may be initiated and the necessary arrangements made believe that the control of the sites should now be acquired by the City.

5. Both of these sites can be leased with options to purchase in later years and the terms submitted to this Department, which are now submitted to the Mayor and Council for consideration briefly are as follows:

In re North Side Terminal:

Leases tendered by the Baltimore & Ohio Railroad and the Equitable Real Estate Company as follows:

Total annual rental\$ 35,250.00
Total purchase price 683,366.00

Which Council sometime ago authorized the Department to proceed to prepare and submit the necessary leases we have been unable to do so on account of a legal dispute between the Baltimore & Ohio Railroad and the Equitable Real Estate Company, due to an overlap of land claimed by both.

The Hays Station site is offered by John Eichleay Company at an annual rental of \$32,500 per year with options to purchase at any time for \$650,000, term of lease 99 years.

6. With regard to the ultimate cost for development of adequate and complete terminals on this site would advise:

(a) NORTH SIDE TERMINAL.

Capital cost of site if purchased\$ 683,000.00
Access to property via. new street from Reedsdale ave..... 265,000.00
Construction of terminal with complete facilities 951,000.00

TOTAL\$1,899,000.00

This does not include certain damages to an existing leasehold, which damage has not as yet been appraised.

From the above it will be seen that the complete development of this site would require \$1,316,000 exclusive of purchase of property, which capital expenditure can be avoided by the lease of the ground.

(b) HAYS STATION TERMINAL. Ultimate and complete plan. Total estimated cost as follows:

Acquisition of site if purchased\$ 650,000.00

Construction of complete terminal 1,250,000.00

TOTAL\$1,900,000.00

7. (a) The foregoing estimates are for completely developed terminals which are not necessary at the present time. The North Side terminal can be initially developed with reduced facilities for \$888,000.00 not including cost of land. This would provide for all necessary facilities including river wall, warehouse, escalators, driveways, etc., sufficient to provide all the features of a complete merchandise terminal but with limited capacity. Of this amount \$265,000.00 could be charged to street improvement bonds and the balance of \$623,000 would have to be defrayed from special appropriations or bond issue.

It is not practicable to develop this site in a proper and economic manner for such less than the amount of money stated. The ground is expensive per unit of area and expensive wall construction is necessary to utilize the site to its full advantage.

(b) At the Hays site the Department's estimate of \$1,250,000 includes 4 principal steps of gradual development, the first two of which involve a construction cost of \$340,000.00. With this sum such cranes could be installed with railroad trackage so as to enable the terminal to function as an interchange terminal between railroad cars and barges. The handling of package freight however would not be economical with these facilities, nor would there be any provision of warehouse nor adequate accommodation for delivery and collection of freight to the terminal by means of motor trucks. There is now railroad tracks and a stiff leg derrick and other equipment on the Hays site which could be put in shape at an expense of about \$10,000 and be able to handle limited shipments of structural steel pipe and similar heavy freight. So equipped the terminal would be in shape to handle what is called "Contract Shipments." The service furnished would be very similar to that now offered by several sand and gravel companies who transfer freight under contract, but probably at somewhat greater cost owing to the limited capacity of the equipment.

8. The above figures are summarized in the following table. The Department's recommendation is for the initial development of both terminals at a combined cost of \$1,228,000 of which \$265,000.00 could be financed from street funds. In addition

there would be the unappraised leasehold damages mentioned above. It is felt that any smaller program than the above would be deficient in important elements of service and that instead of a well rounded program offering full service to the various commodities and carriers which may be expected to operate on the rivers only limited classes of service could be maintained.

9. Consideration should be given at once to the policy to be adopted by the City with regard to terminal operation. Existing terminals of this character are operated by terminal companies as a rule. Usually the terminals are subsidiaries of river transportation companies. The usual arrangement is a contract between a terminal operating company and the municipality, the municipality providing the site and fixed structures and the terminal corporation pro-

viding equipment. The terminal corporation either pays the municipality tollage charge of a fixed account per ton of freight handled or on some other basis of payment is arranged to compensate the municipality on account of the fixed charges incurred by it. This City should enter into some such contract with a terminal corporation, and preferably with a Pittsburgh corporation, if such be possible. This Department has received informal communications from one of the transportation companies which proposition should be considered along with any others that may be offered.

Yours very truly,

EDWARD G. LANG,
Director.

No. 1273.

June 16, 1930.

To the President and Members of
City Council

Gentlemen:

Answering your letter of the 11th inst., with reference to Councilmanic Bill No. 1169, changing the salaries of various positions in the Bureau of Traffic Planning, wish to reply as follows:

At the last meeting of the Mayor's Better Traffic Committee, held in the latter part of November, 1929, at which salaries in our Bureau were discussed, the Committee, after long discussion, adopted the following salaries for the various positions with the request that it be submitted to City Council:

Traffic Engineer, salary be increased from	\$5,000 to \$6,000
Asst. Traffic Engineer, salary be increased from	3,000 to 3,500
Electric Signal Engineer, salary be increased from	2,500 to 2,800

Field Work Chief, salary be increased from 2,000 to 2,400 and that the position of Plans Engineer at a salary of \$2,800 per annum be added.

Since that time the City of Philadelphia has created a Traffic Planning Bureau and has established the following positions and salaries:

Traffic Engineer\$7,500 per annum
Asst. Traffic Engineer..... 5,000 per annum
Electric Signal Engineer..... 4,000 per annum
Chief Draftsman and Plan Engineer 3,500 per annum
Accident Analyst 3,000 per annum

The traffic situation in Pittsburgh on account of limited amount of thoroughfares in our business section, is a far greater problem than that of the City of Philadelphia which has many parallel streets thru their congested districts.

Mr. Burton W. Marsh, our former Traffic Engineer, has accepted the position of Traffic Engineer in the City of Philadelphia at a salary of \$7,500 per annum.

With regard to the section of this proposed ordinance which changes the salary of the Traffic Engineer from \$5,000 to \$7,500, I believe this is an advisable change, as it is in line with the City of Philadelphia and other large cities. The compensation would be sufficient for a competent engineer to want to remain in the City of Pittsburgh and he would not be tempted by offers from other cities. Experienced traffic engineers are very much in demand at the present time.

In regard to the proposed change of the Assistant Traffic Engineer's salary from \$3,000 to \$4,000, I believe that the ratio between the proposed salary of the Traffic Engineer and the proposed salary of the Assistant Traffic Engineer is greater than it should be—being almost double in amount. The salary of the Assistant Traffic Engineer should be greater than that of the Traffic Planner, as his duties are far more varied and greater than those of Traffic Planner. In the absence of the Traffic Engineer due to sickness or other causes, or should there be a vacancy in that position, if these salaries were the same there would quite probably be a question as to who would be in authority.

In regard to the position of the Traffic Planner, I feel that this new position is needed in our Bureau and that the salary proposed is adequate in order to obtain and hold a competent man for this position.

Mr. Marsh is at the present time looking

for an assistant traffic engineer, an electric engineer, and a plan engineer, and he is desirous of filling these positions from our bureau.

Very truly yours,
DONALD M. McNEIL,
Asst. Traffic Engineer.

MOTIONS AND RESOLUTIONS.

Mr. English presented

No. 1280. WHEREAS, The matter of freight rate discrimination against Pittsburgh's coal and iron business is a great handicap; and,

WHEREAS, The welfare and prosperity of the entire community depends upon the basic industries obtaining just and equitable freight rates, so that the mines and mills of Pittsburgh and vicinity may operate and furnish employment to the workers and not be kept closed because the natural geographic location of Pittsburgh as a business center has been lost because other sections of the country with longer hauling distances are favored with lower freight rates, while Pittsburgh, with shorter hauling distances, has been compelled to pay higher rates; Therefore, be it

RESOLVED, That the Council and Mayor of the City of Pittsburgh deem it necessary for the welfare of the City to take official action by having the City Solicitor intervene in the cases now pending before the Public Service Commission of Penna., the Interstate Commerce Commission of the U. S. and in any Courts or before Congress with all these matters in an effort to obtain just and equitable freight rates for Pittsburgh; and, be it further

RESOLVED, That the City Solicitor shall present any legislation necessary to carry out the intent and purposes of this resolution, expenses for expert counsel, witnesses, investigations and other necessary expenses in connection with same.

Which was read.

Mr. English moved

The adoption of the resolution.

Which motion prevailed.

Mr. English moved

That the Minutes of Council, at a meeting held on Monday, June 9, 1930, be approved.

Which motion prevailed.

Mr. Alderdice presented

No. 1281. WHEREAS, The Game Warden at Harrisburg has let it be known that the State of Pennsylvania has a sufficient quantity of ringneck pheasants on hand, which may be divided among the different parks throughout the State on request of those in authority; and,

WHEREAS, It is desirable that the City of Pittsburgh be supplied with a share of this game; Therefore, be it

RESOLVED, That the Director of the Department of Public Works be directed to request the Game Warden at Harrisburg to allot to the City of Pittsburgh a number of ring-neck pheasants for the purpose of stocking our public parks.

Which was read.

Mr. Alderdice moved

William McDowell

Attorney and Counsellor at Law
308 Bakewell Bldg.
Pittsburgh, Pa.

June 16, 1930.

To the President and Members of Council,
City of Pittsburgh,
City-County Bldg.,
Pittsburgh, Pa.

Gentlemen:

I take the liberty of writing you in regard to the present condition of the public highway from the intersection of S. Highland avenue on Elwood street, East End, Pittsburgh, Penna.; that they are constructing an apartment building on the southwest corner of S. Highland avenue and Elwood

street and that as the result of the construction of the said apartment the highway at that point has become dangerous to the public in passing and repassing. That there is no light there and that it is practically dark there for about 300 ft. on Elwood street and the sidewalk from S. Highland avenue for 300 ft. on one side is blocked with material for the construction of the apartment and on the other side is the building in operation. This is indeed very dangerous and a menace to the public and people living in that vicinity after sunset.

I am going to ask you gentlemen to have this condition remedied at your earliest convenience. There must be more lights there especially at the junction of Elwood street and S. Highland avenue. As it now stands someone may get hurt very seriously. Something must be done to prevent loss of life and I am going to suggest to you to have this matter investigated and see that this matter is corrected immediately.

Thanking you for your kind attention,
I am,

Very truly yours,

WILLIAM McDOWELL.

Which was read.

Mr. Alderdice moved

That the communication be referred to the Director of the Department of Public Works requesting him to take care of the matter.

Which motion prevailed.

Mr. Alderdice moved

That the committee meetings be held on Tuesday, June 17th, at 1:30 P. M., instead of 12:30 P. M. (Eastern Standard time).

Which motion prevailed.

Mr. English moved

That Council hold a special meeting on Friday, June 20th, 1930, at 12:30 o'clock, P. M. (Eastern Standard time) to take up the regular order of business.

Which motion prevailed.

And on motion of Mr. Muldowney

Council adjourned.

President and Members of Council,
Pittsburgh, Pa.
Gentlemen:

The Department finds it advisable to authorize the Pennsylvania Drilling Company to make one additional test hole on the site of the proposed new Brilliant Electric Pump Station, in connection with their Contract No. 3593, countersigned June 10th, 1930.

The information furnished by this additional work, the cost of which will not exceed \$96.20, is required in order to define the foundation conditions more fully.

This additional work will not cause the entire cost of the drilling contract to exceed the Engineer's estimate.

We shall await your letter of approval before issuing the additional work order.

Very truly yours,

CHARLES H. KLINE,
Mayor,

Acting Director, D. P. W.

Subject: Elizabeth Street Bridge.

President and Members of Council,
City of Pittsburgh.
Gentlemen:

In the reconstruction of the Elizabeth Street Bridge Approaches, which project has been authorized by Council, it is believed desirable to move the west approach to the north, so that the sideline of the bridge will be on the building line of the street.

At the present time, there is a depressed sidewalk between the buildings on this side and the old approach, which the Department feels should be eliminated. Before doing so, however, it is believed desirable to ascertain if such a move will result in any property damages, and if so, the amount of the same. The consent of Council is therefor requested to permit the Law Department to have an appraisal made of the damages, if any, resulting from such a move.

Yours very truly,

CHAS. M. REPERT.
Chief Engineer, D. P. W.

President and Members of Council,

City of Pittsburgh.

Gentlemen:

One of the City streets or roads which is considered by the State Highway Department is a through road and to the improvement of which the State has agreed to supply funds to the extent of approximately \$107,000.00 is Noblestown road, extending from Obey avenue to the point where the road crosses the car tracks of the Pittsburgh Railways Company, and thence southwardly to Baldwin road, a distance of approximately 6000 feet. The present width of roadway is generally 24 feet and the width of the street or road varies from 30 to 40 feet.

The State demands that in the reimprovement of this road a roadway be made 36 feet wide, and in addition to this, we deem it advisable to have sidewalk spaces on either side of the road varying from 7 to 10 feet in width, which means that a widening will have to take place.

We have funds set aside in the repaving schedule to pay the City's share of the physical work, but before presenting an ordinance for the widening, we request that the Law Department be authorized to have an appraisal of damage made account said widening in order that we may have all the facts to present to Council with the widening ordinance, which legislation will be ready for the first meeting of Council in September.

Yours truly,

CHAS. M. REPERT,

Chief Engineer, D. P. W.

June 24, 1930.

President and Members of Council,
City of Pittsburgh.

Gentlemen:

Please be advised that the Department has ordered an underground lighting system for Bellefield avenue between Forbes street and Fifth avenue.

This is considered necessary for the reason that the street is now being widened and is an approach to the Carnegie Institute and will have a number of very important buildings thereon.

Yours very truly,

CHAS. M. REPPERT,
Chief Engineer, D. P. W.

Committee on Public Works,
City of Pittsburgh.

Gentlemen:

In reference to a motion adopted at the meeting of the Committee on Public Works June 21, 1930 that the Department provide for placing the wires on Bellefield avenue between Forbes street and Fifth avenue underground, I beg to advise you that the Department is ordering the wires underground and the installation of a new underground lighting system.

This change in the lighting system is in conformity with the scheme of lighting that has been worked out for the future for Fifth avenue and Forbes street in this vicinity.

The total additional cost of the new lighting on Bellefield avenue will be \$464.75, per year.

Yours very truly,

CITY OF PITTSBURGH
DEPARTMENT OF CITY PLANNING

Pittsburgh, Pa., June 20, 1930.

President and Members of Council,
City of Pittsburgh.

Gentlemen:

I am transmitting herewith copy of a resolution adopted by the City Planning Commission, at its regular meeting held June 17th, 1930, on the death of its late member, James D. Hailman.

Yours very truly,

U. N. ARTHUR,
Chief Engineer.

That the City Planning Commission records herewith as a part of its Minutes, its sense of the great loss this Department of the City Government of Pittsburgh has sustained

in the sudden death of James D. Hailman on June 7th, 1930, both because of the invaluable services he rendered the City Planning Commission by remarkably conscientious, thorough, and impartial attention to the major and minor questions with which he was called upon to deal as a member of this body, and also because of the high personal regard and respect with which he inspired his associates on this Commission:

That this Commission record its appreciation of and admiration for the unselfish services which Mr. Hailman rendered the City of Pittsburgh officially through his almost continuous membership of the City Planning Commission since his initial appointment as a member of the newly created

body in 1911, and record a like admiration for his quiet, consistent, and able devotion to the general support of city planning and to varied civic and philanthropic enterprises for the welfare of the community.

That copies of this record of appreciation be transmitted to the Mayor and to the City Council; and, finally,

That the City Planning Commission herewith expresses the sincere sympathy of its members for Mrs. Hailman in her great loss, and directs that an embossed copy of this Minute, to be signed by all members of the Commission, be conveyed to her as evidence of the high regard in which her husband was held.

Which was read, received and filed.

MOTIONS AND RESOLUTIONS.

Mr. Alderdice presented

No. 1413.

WHEREAS, Many accidents involving motor vehicles have occurred within the past month or two on the boulevards and streets of the City of Pittsburgh, causing serious injuries and, in some cases, death to persons, besides causing considerable damage to vehicles; and,

WHEREAS, In many cases these accidents have been the result of reckless driving and the driving of motor vehicles by persons while under the influence of liquor; and,

WHEREAS, In order to properly safeguard the lives and limbs of the citizens of Pittsburgh drastic action must be taken to curb this reckless driving on the city streets and boulevards; Therefore, be it

RESOLVED, That the Director of the

Department of Public Safety be and he is hereby requested to issue instructions to the Bureau of Police to have all laws relating to the operation of motor vehicles in a reckless manner or by persons under the influence of liquor enforced, and to use all police powers now at their command to protect pedestrians using the sidewalks and streets of the City.

Which was read.

Mr. Connelley presented

No. 1414.

WHEREAS, The City of Pittsburgh has established and maintains public parks for the wholesome recreation and entertainment of its citizens; and,

WHEREAS, Among these parks are two situated on the North Side of the City of Pittsburgh, known as East and West Parks, which are largely patronized by the residents within the immediate vicinity; and,

WHEREAS, Many complaints have been registered against young men and boys playing baseball in these parks, which is a source of danger to those who use them and extremely hazardous to passing motorists and results in the destruction of trees, plants and shrubbery; and,

WHEREAS, Many persons of questionable character frequent these parks and cause annoyance to women and children; and,

WHEREAS, These parks are maintained for the people of Pittsburgh and should be properly supervised to avoid these complaints; Therefore, be it

RESOLVED, That the Department of Public Safety be and it is hereby requested to assign as many police officers as are required to properly supervise East and West Parks so as to preserve order and peace in them.

Which was read.

No. 1422.

WHEREAS, Pennsylvania has had no representation on the Tariff Commission, and four new members must be appointed by President Hoover before Congress adjourns.

Our great Industrial State is certainly entitled to consideration; the fact that our State has not been represented on the Tariff Commission, the Interstate Commerce Commission and the Federal Trade Board should have a distinct bearing on the present situation.

THEREFORE, BE IT RESOLVED, And it is hereby Resolved,

That the Mayor and Council of the City of Pittsburgh representing the people (employers and employees) of this great Industrial District, respectfully request that the Secretary of the Treasury, The Honorable Andrew W. Mellon, our United States Senator, The Honorable David A. Reed, and our Congressmen from this District, use their best endeavors to have the State of Pennsylvania represented on this exceedingly important body; and

BE IT FURTHER RESOLVED, That the President of Council take steps to forward this Resolution by wire and mail to our representatives as stated.

Adopted at a meeting of the Committee on Finance, Saturday, June 21, 1930.

Which was read and ordered printed in full in the record.

Mr. English moved

Which motion prevailed.

And the bill was read a second time.

Mr. Alderdice also presented

No. 1347.

CITY OF PITTSBURGH.

Department of Assessors.

July 2, 1930.

Committee on Public Service and Surveys,
City Council, Pittsburgh.

Gentlemen:

With reference to Bill No. 1340, an Ordinance vacating Putney way, 6th Ward, from 31st Street to 32nd Street, and Bill No. 1342, an Ordinance vacating Spruce way, 6th Ward, from 30th Street to 31st Street.

The value of the property located in the bed of Putney way, from 31st street to 32nd street, in our judgment is \$23,040 for 11,520 square feet.

The property located in the bed of Spruce way, from 30th to 31st Street, is similar in area, and the value thereon is \$23,040. The unit price of these properties is \$2.00 a square foot.

Very truly yours,

THOMAS C. McMAHON,
Chief Assessor.

Which was read, received and filed.

No. 1348.

CRUCIBLE STEEL CO. OF AMERICA
Oliver Bldg., Pittsburgh, Pa.

July 2, 1930.

Hon. John Herron,
President of Council,
Pittsburgh, Penna.

Dear Mr. Herron:

Referring to the petition of the Crucible Steel Company of America for the vacation of Spruce way, between 30th and 31st Streets, and Putney way, between 31st and 32nd Street, in the Sixth Ward, Pittsburgh, Pennsylvania.

Some time ago the Company acquired the property of the Carbon Steel Company lying on the north side of Putney way and has made large additions and improvements

to its plant and contemplates further additions and improvements which make it necessary for it to occupy the land covered by these alleys. It has now under way improvements costing more than a million dollars and contemplates further improvements, provided these alleys are vacated, which will involve an equally large expenditure.

If the Council will vacate these alleys, which are now wholly useless to the public, the Company will be willing to waive its claim for damages in the construction of the 33rd Street sewer, in which the viewers awarded it \$4,800.

I wish also to call your attention to the fact that in the building of the 31st Street Bridge and the approaches and the elevation of 31st street, the Crucible Steel Company of America co-operated with the City and made no claim for damages in the construction of this improvement through its property. In my opinion, the public interest will be served by the vacation of these alleys.

Very truly yours,

CRUCIBLE STEEL CO. OF AMERICA,

By George E. Shaw,
Treasurer.

Which was read, received and filed.

Mr. English stated

That he had been informed by Mr. Waldschmidt that the amount awarded by the viewers for damages in the construction of the 33rd Street Sewer, to the Crucible Steel Company, had been paid to said Company; that this matter should be given further consideration and not passed too hurriedly, and moved

That the bill, together with Bill No. 1340, be laid over pending a conference with the officials of the Crucible Steel Company.

Mr. Garland stated

That he would not hesitate to vote for the bills at once, as he believed corporations, employing men, should be encouraged to stay in Pittsburgh.

Mr. Alderdice stated

That he was of the same opinion as Mr. Garland; that the Company had already started the erection of new buildings and the work should not be delayed; that he was ready to vote for the ordinances at once.

Mr. Little stated

That he was of the same opinion as Mr. Garland and Mr. Alderdice, and the Company should be encouraged to stay in Pittsburgh.

Mr. Connelley stated

That he believed that all industries should be encouraged to stay in Pittsburgh, but did not believe a short delay, until a conference could be arranged with the Company, would work any hardship on them.

Mr. Kambach stated

That as all the other members had spoken on the subject he believed he should say something; that he did not think anything should be done that would drive any industry from Pittsburgh, but that sufficient delay to investigate the matter more thoroughly would hardly do any harm.

The Chair asked Mr. John Sharp, representing the Crucible Steel Co., to state whether he believed a delay would affect the interests of the Company.

And Mr. Sharp being given the privilege of the floor stated

That the Company had already started the erection of the buildings; that he and Mr. Shaw were under the impression that the money for damages in the construction of the 33rd Street Sewer had not been paid to the Company, and was surprised to hear that it was; that he would personally guarantee the payment, and would have a check made out at once.

The Chair then asked Mr. English if he would withdraw his motion.

Mr. English arose and said

Mr. President: I wish to withdraw my motion to postpone action on these bills, with this understanding. I believe Mr. John A. Sharp and the Crucible Steel Company are acting in good faith. I am confident that Mr. Sharp was unaware of the fact that the City had already paid the \$4,850.00 damages mentioned in the letter of Mr. Shaw of the Crucible Steel Company. On the assurance of Mr. Sharp that the Crucible Steel Company will reimburse the City in the sum of \$4,850.00 paid to them as damages for the construction of the Thirty-third Street Sewer and proper receipt therefor being given by the City Solicitor, I will vote for the passage of

these ordinances. I also wish to have it understood that Council will recall these ordinances if they do not meet with the approval of the Department of Public Works and the Department of City Planning.

And, with the consent of the seconder, the motion was withdrawn.

And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.	
Alderdice	Kambach
Connelley	Little
English	Herron, (Pres't.)
Garland	
Ayes 7. Noes none.	

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 1340. An Ordinance entitled, "An Ordinance vacating Putney way, in the 6th Ward of the City of Pittsburgh, from Thirty-first street to Thirty-second street."

Which was read.

Mr. Alderdice moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.	
Alderdice	Kambach
Connelley	Little
English	Herron, (Pres't.)
Garland	
Ayes 7. Noes none.	

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. Connelley presented

No. 1439. Report of the Committee on Parks and Libraries for July 1st, 1930, transmitting an ordinance and two resolutions to council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 1354. An Ordinance entitled, "An Ordinance providing for the letting of a contract or contracts for the furnishing of One (1) Auto Truck for the Bureau of Parks, Department Public Works, and providing for the payment thereof."

Which was read.

Mr. Connelley moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.	
Alderdice	Kambach
Connelley	Little
English	Herron, (Pres't.)
Garland	
Ayes 7. Noes none.	

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 1352. Resolution authorizing the issuing of a warrant in favor of Louis Rube, Inc., in the sum of \$3,040.00, or so much of the same as may be necessary, in payment for One (1) pair Sila Deer and One (1) pair Hartman Zebras; same to be chargeable to and payable from Code Account 1849.

Which was read.

Mr. Connelley moved

A suspension of the rule to allow the

second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Alderdice	Kambach
Connelley	Little
English	Herron, (Pres't.)
Garland	

Ayes 7. Noes none.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

Also

Bill No. 1353. Resolution authorizing the issuing of a warrant in favor of John T. Benson in the sum of \$4,100.00, or so much of the same as may be necessary, in payment for one (1) pair Antelopes, \$2,000.00; one Camel, \$900.00; one pair Llamas, \$700.00, and one Female Aoudad, \$500.00; same to be chargeable to and payable from Code Account 1849.

Which was read.

Mr. Connelley moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Alderdice	Kambach
Connelley	Little
English	Herron, (Pres't.)
Garland	

Ayes 7. Noes none.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

Mr. Alderdice (for Mr. Anderson) presented

No. 1440. Report of the Committee on Public Welfare for July 1st, 1930, transmitting two resolutions to council.

Which was read, received and filed.

Also, with a negative recommendation,

Bill No. 465. Resolution authorizing the issuing of a warrant in favor of J. Toner Barr Co. for the sum of \$7,176.43,

for extra cost of the contract entered into July 5, 1928, for construction of sewers, water and gas lines at Mayview City Home, and charging same to Bond Fund No. 281.

Which was read.

Also

Bill No. 464. Resolution authorizing the issuing of a warrant in favor of the Rush Machinery Company for the sum of \$4,374.80, for extra cost of installing the Power House Equipment at Mayview City Home, and charging same to Bond Fund No. 281.

Which was read.

Mr. Alderdice moved

That further action on the resolutions be indefinitely postponed.

Mr. Garland arose and said:

Mr. President, If action on the resolutions is indefinitely postponed, they could not be considered during the life of the present council, and I oppose such action because a hearing had been promised the interested persons.

The Chair said:

Gentlemen: These bills were returned to Council with a negative recommendation by the Committee on Public Welfare at a meeting held July 1, 1930, and the recommendation of this committee would probably have been carried out if Mr. Garland had not raised the question that negative action would practically prohibit anything being done on these claims during the life of this Council. I might state that our City Solicitor notified Council that they were not legal claims, and a majority of the members being of the opinion that this money will not be paid from the bond fund, and for that reason the City Controller should be requested to withdraw his certification from these bills and release this fund for regular construction and improvements at that institution. It is the intention of Council at a later date to give the representatives of these companies a hearing, and if any consideration is given to them the funds will be provided out of the regular tax levy and not charged to municipal improvement bonds.

Mr. Garland moved

That the resolutions be laid on the table and the City Controller, at the request of Council, be requested to withdraw his

certification from the resolutions and that the funds encumbered be released.

Which motion prevailed.

MOTIONS AND RESOLUTIONS.

The Chair presented

No. 1441.

WHEREAS, The Fifteenth Decennial Census of Allegheny County has been completed; and

WHEREAS, This work was accomplished in a most able and expeditious manner by the local men engaged for that purpose, under the direction of Mr. J. E. Routley, the Supervisor for the Fourteenth District of Pennsylvania; Therefore, be it

RESOLVED, That the Council of the City of Pittsburgh desires to commend the local Supervisors engaged in this important work on the efficient manner in which this most difficult work has been carried to completion, and extends to Mr. J. E. Routley, Supervisor of the Fourteenth District of Pennsylvania, the individual thanks of the members of Council for the courtesies shown in keeping them informed of the progress of the Census as regards the City of Pittsburgh proper; and be it further

RESOLVED, That a copy of this Resolution be forwarded to Mr. J. E. Routley and to the Director of the Census at Washington, D. C.

Which was read.

Mr. Alderdice moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 1442.

WHEREAS, The City of Pittsburgh and

the County of Allegheny have entered into an agreement for the construction of the West End-North Side Bridge, extending from the vicinity of Manhattan street and Western avenue on the North Side to the vicinity of Carson street West and South Main street on the south side of the Ohio River; and

WHEREAS, Said agreement requires the City to carry out certain proceedings, one of which is the widening of Carson street West, east and west of the bridge for an approach to same; and

WHEREAS, In order to widen Carson street West it will be necessary to obtain property from the Pittsburgh & West Virginia Railway Company which will have to be done by agreement and not by condemnation proceedings; Now, therefore be it

RESOLVED, That the City Solicitor be and he is hereby authorized and directed to enter into negotiations with the said Pittsburgh & West Virginia Railway Company for the widening of Carson street West in accordance with the terms of the agreement above referred to, and to report to Council as quickly as possible in order that the necessary legislation may be presented and permit the County of Allegheny to carry out this important project.

Which was read.

Mr. English moved

The adoption of the resolution.

Which motion prevailed.

Mr. Alderdice moved

That Council adjourn to meet at the call of the Chair.

Which motion prevailed.

And Council adjourned.

PRESENTATIONS.

Mr. English presented

No. 1445. Petition of property owners, citizens and tax payers of the 12th Ward, Pittsburgh, asking that the establish-

ment known as the East Liberty Home Dressed Meat Co., owned by Ralph G. Egerman, 6830-32-34 Upland street, recently destroyed by fire, be given no permit to rebuild except with fire-proof construction, and stating that the plant as formerly operated was a menace to the health of the community, which is purely residential.

Which was read and referred to the Board of Adjustment and the Building Inspector with instructions that the granting of a building permit be given careful consideration.

Mr. Kambach presented

No. 1446. An Ordinance supplementing an ordinance entitled, "An Ordinance regulating and restricting the location of trades and industries and the location of buildings designed for specified use and regulating and limiting the height and bulk of buildings hereafter erected or altered, and regulating and determining the area of yards, courts and other open spaces in connection with buildings hereafter erected or altered, and establishing the boundaries of districts for the said purposes; conferring certain powers upon the Superintendent of the Bureau of Building Inspection; providing for a Board of Appeals, and imposing penalties," approved August 9, 1923, by extending the Zone Map, so as to include the Thirty-second Ward, formerly Overbrook Borough, as shown on the attached map.

Which was read and referred to the Committee on Public Works.

Mr. Little presented

No. 1447. An Ordinance authorizing and directing the Mayor and the Director of the Department of Public Works, for and in behalf of the City of Pittsburgh, to enter into an agreement with the County of Allegheny relating to the improvement of the Ohio River Boulevard in the City of Pittsburgh, from the western property line of Superior avenue, and extending approximately 15 feet northwest of the northwest intersection of California avenue and Atmore street, including the locating, re-locating, opening, widening, establishing and reestablishing the grade and fixing the line of the said Ohio River Boulevard, and providing for the payment of the City's share of the costs, damages and expenses thereof.

Also

No. 1448. An Ordinance widening California avenue, in the 27th and 21st Wards of the City of Pittsburgh, from

Superior avenue to Atmore street, and providing that the costs, damages and expenses occasioned thereby be assessed against and collected from properties benefited thereby.

Which were read and referred to the Committee on Public Works.

Also

No. 1446. Resolution authorizing the issuing of a warrant in favor of Dr. Edward B. Heckel in the amount of \$300.00, covering medical service rendered to Jos. N. Patterson, an engineer at the Diamond Market injured in the performance of his duty, and a warrant in favor of the Allegheny General Hospital in the sum of \$113.50, covering hospital treatment rendered to said Joseph N. Patterson, and charging the amounts to Code Account No. 44-M, Workmen's Compensation Fund.

Which was read and referred to the Committee on Finance, with the request that the Clerk refer the same to the Law Department in order that a report may be

ready for the next meeting of the Committee.

Mr. Kambach presented

No. 1450. Communication from Guy M. Dailey, Captain, Police Revolver Team, asking permission for said team to attend the Annual Revolver Champion matches at Camp Perry, Ohio, and requesting that the City pay the expenses, amounting to \$450.00.

Which was read, received and filed, and on motion of Mr. Kambach the request was granted and referred to the City Controller to have the proper transfer resolution prepared for introduction at the next meeting of Council.

Mr. English moved

That the Minutes of Council at meetings held on Monday, June 30, 1930, on Tuesday, July 1, 1930, and on Thursday, July 3, 1930, be approved.

Which motion prevailed.

And on motion of Mr. Garland.

MOTIONS AND RESOLUTIONS.

Mr. Kambach presented

No. 1682. WHEREAS, St. George's R. C. Church desires to erect two portable school rooms on lots owned by the parish on Climax street, 18th Ward, and

WHEREAS, These rooms will be of fire-proof construction; and

WHEREAS, They are to be erected for the purpose of relieving the overcrowded condition of the class rooms in the present school building; Therefore, be it

RESOLVED, That it is the sense of Council that the Department of Public Safety, through the Bureau of Building Inspection,

grant a permit to said St. George's R. C. Church to erect two portable school rooms, as aforesaid, on their property on Climax street, 18th Ward, and to use same until such time as a new building is constructed.

Which was read.

Mr. Kambach moved .

The adoption of the resolution.

Which motion prevailed.

Mr. Muldowney moved

That the Minutes of Council at a meeting held on Monday, August 11, 1930 and Wednesday, August 13, 1930, be approved.

Which motion prevailed.

Mr. English stated

That a large storage building was being erected at Penn avenue and Fifteenth street; that it is in the vicinity of the extensive improvements to be made by the Pennsylvania Railroad Co.; that he believed the building should have windows in front, or some ornamentation other than a blank wall, and moved

That the Art Commission and Planning Commission be requested to confer with the Company erecting this building and see if some provisions could be made to do away with the blank wall by putting in windows or some form of ornamentation suggesting windows.

Which motion prevailed.

And on motion of Mr. Little

Council adjourned.
